

## DERBYSHIRE COUNTY PCT AND DERBY CITY PCT DRAFT MATERNITY SERVICES STRATEGY

### 1. The Vision

Pages 1 and 2 of the strategy outline a vision that places women and their partners at the centre of their local maternity service provision and ensure that maternity services are developed equitably across the county. **All pregnant women in Derbyshire County and Derby City will be given equality of access and the ability and opportunity to make informed choices about their care.**

Does the Strategy support this vision?
If no, can you suggest how the Strategy could be further developed?

### 2. The Service Model

Pages 4 and 5 outline the elements of the proposed service model for maternity services in Derby and Derbyshire.

#### ***Pre-conceptual information and care***

Are these issues the right ones to consider?
Can you suggest alternatives or additions?

### ***Ante Natal Care***

Are these issues the right ones to consider?
Can you suggest alternatives or additions?

### ***Intrapartum Care***

Are these issues the right ones to consider?
Can you suggest alternatives or additions?

### ***Post Natal Care***

Are these issues the right ones to consider?
Can you suggest alternatives or additions?

### 3. Care Pathways

Can you suggest ways in which the two care pathways can be developed and evaluated to ensure that they deliver high quality care to meet individual women's needs and expectations? (*Use this space to make any comments or suggestions that you feel may be relevant*).

If you would like to receive a copy of the final strategy document, please write your name and address in the space below.
