Question	Response/ findings
	These tests were scrutinised at a meeting held on 10 February 2011. Anonymous data was supplied about current service users. There were no apparent concentrations. Naturally the older the age group we looked at the more females there were than males – as expected. One thing was evident that there are fewer people from minority communities in the moderate bands than expected. This may well be because families often try to support for longer until crisis or they feel that the type of care the Council may be able to provide work of the seen as culturally appropriate for them.
higher or lower take up under the policy or practice, or of the service or function for any particular groups? For example, who uses the	An Equality impact, needs and requirements assessment undertaken on a new Fair Access to Care Services policy in the 2007 told us that there was no evidence to suggest that a particular group was negatively affected by this policy or that there was higher or lower take up of services. Therefore, the application of the policy should cause no particular equality issue in terms of take up. The proposals contained in the Cabinebreport dated 23 November 2010 if approved by Cabinet would have an obvious negative impact on those who may longer receive a service. The test would be to look at the data from the last two paragraphs in the response to question six to see if this would cause people to choose not to seek a service.
8- Have there been any important demographic changes or trends locally? For example is the population changing, and if so, how and what might that mean for the service or function?	• This represents a very significant rise given that 56% of the additional care gross budget is spent on older people's services.
	No there is no indication in terms of the application of the Fair Access to Care Services policy. The proposals will have an effect on people who are currently and people who may be assessed in the future as being moderate in terms of service provision. By the nature of adult social care those in the affect will be from all age groups and / or be disabled people or people with life limiting illnesses. The

11- Does any equality or	Derby City Council's Equality and Diversity Policy November 2009. The Equality and Diversity Policy
diversity objectives	underpins all other policies, service plans, procedures and systems. The Chief Executive has lead
	responsibility for implementing and monitoring this policy, but all employees have a responsibility to work
	from it in all areas of their work.
performance like against them?	All Local Authorities need to be aware of the Equality Act 2010 and make sure their services comply with it.
	Equality and divensity are very important to us at the Council because it means we try to do our best to
	make sure people are treated fairly and given fair opportunities. We value the cultural diversity of all Derby
	people as this adds rich ress to our city, which we are very proud of.
	Everyone has different peeds and equality is about meeting these different needs. We also realise that we
	need a diverse workforce so we can provide the best possible services to all our community.
	We are very proud to have achieved the Equality Standard for Local Government Level 3 Equality Mark
	and now we are working to achieve excellent in the new Equality Framework for Local Government, which
	has now replaced the Standard. This is a main objective in our Corporate Plan. This new framework is
	based on three levels of achievement – 'developing', 'achieving' and 'excellent', rather than the five
	levels of the old Standard. There are five areas for us to work on and these are:
	 knowing your communities and equality mapping
	 place shaping, leadership, partnership and organisational commitment
	community engagement and satisfaction
	responsive services and customer care
	a modern and diverse workforce
	Corporate Equality and Diversity Plan 2009 - 2012. It covers the work we plan to do on equality for the
	next three years. Having an equality and diversity policy is not enough on its own and it is important that
	we have a plan to make our policy come to life. So, we have a three-year Equality and Diversity Plan,
	which all council departments have signed up to.
	Staff Code of Conduct and Customer Care Strategy sets out how staff should act when sealing with
	service users.
	\sim H_{\star}
	Adult Medication Policy sets out how people should be supported in that service users are all individuals
	and as such this policy must be applied with regard to the individual's beliefs, wishes, experience and
	ability. Employees should be aware of the individual's cultural background and other factors that inpact on

All polices are printed and produced in English. There are facilities to provide the policy in any other way,

12- Is the service having a The proposals whilst potentially having an effect on people who are currently and people who may be positive or negative effect assessed in the future as being moderate would have a negative impact in terms of service provision. This would not be targeted at any one particular group, but of course by the nature of adult social care those it may affect will be from all age groups and have impairments or life limiting illnesses. This will be more evident amongst place people and a higher proportion of those will be women as the age band increases.

Collecting the information and data about how the policy, practice, service or function, impacts on communities

Please record your information and data in this table and think about

- s what information or data you will need
- s using both quantitative and qualitative data
- s making sure that where possible there is information that allows all perspectives to be considered
- s identifying any gaps in the information/ data and what it can tell you

Data or information	When and how was it collected?	Where is it from?	What does it tell you? You need to consider all six equality strands where you can	Gaps in information

Performance information including Best Value	\mathbb{P}			
Take up and usage data	From Existems	SWIFT	The proposals will have an effect on people who are currently and people who may be assessed in the future as being moderate in terms of service provision. By the nature of adult social care those it may affect will be from all age groups and / or impairments or life limiting illnesses. The proposals do not intentionally target any one particular group or community.	
Comparative information or data where no local information			R R R R R R R R R R R R R R R R R R R	
Census, national or regional statistics	Census 2001	Census 2001 and mid term estimate	Our mid year estimate is that we have a population of 240,100 The Census told us we have nearly 19% disabled people living in Derby and nearly 16% minority ethnic people. Main religions in Derby are 67.4% Christian, 4.5% Muslim, 3.2% Sikh and nearly 16% no religion. The main languages are English, Punjabi,	We have no accurate statistics for the number of lestians, gay men and bi- sexual people living in-Derby, although the National Audit Office suggests

Please give your detailed findings in this table

Service or function	Policy or practice	Findings	Which groups are affected and how	Whose needs are not being met and how?
Adult Social Services	Eligibility threshold	Low numbers of people from minority communities accessing services. This may be due to insufficient knowledge of the support the Council can offer or that the services are not seen as appropriate alternative for some.	All groups	People who may have eligible social care needs
Adult Social Services	Electronic information systems	Low numbers of deaf people appear to be using services. This is because the system generates the biggest care provision on reports – if someone needs or going support with a mobility issue for example this will appear as their primary support need as the equipment needed to support the impairment is supplied as a one off intervention.	Deaf or hearing impaired groups	Deaf or hearing impaired people
Adult Social Services	Eligibility threshold	The proposal to remove the 'moderate' band will have a negative impact on people	All groups	People assessed as having moderate needs
Objectives - process, impact or outcome based Please give your proposed objectives/ targets in this table				

Objectives - process, impact or outcome based

Objective/Target:	Raise awareness of the support people from minority communities can get from the Council
Specific	Include as an outcome for the Information, Advice and Advocacy project within transforming social care
Measurable	Can be measured against the baseline snapshot of all service users taken in February 2014
Achievable	Reports can be generated to compare against the baseline snapshot.
Relevant	Yes will allow an analytical comparison to be competed.

Timed (12 months from introduction
Objective/Target:	Work with people from minority communities to develop appropriate social care support for
	Sytheir cultural requirements
Specific	/Include as an outcome for the Market Development project within transforming social care
Measurable	Can be)measured against the baseline snapshot of all service users taken in February 2011
Achievable	Reports can be generated to compare against the baseline snapshot.
Relevant	Yes will allow an analytical comparison to be competed.
Timed	12 and 24 houths from inception
Objective/Target:	Assess the feasibility and affordability of changing the Electronic information systems to
	produce reports covering acoples current and past interventions

	produce reports covering seoples current and past interventions
Specific	Include in the review of the Electronic information systems provision
Measurable	Can be measured against the basefine snapshot of all service users taken in February 2011
Achievable	Reports can be generated to compare against the baseline snapshot.
Relevant	Yes will allow an analytical comparison to be competed.
Timed	September 2011
	\bigcirc / 5 .

Objective/Target:	Re-assessment of all people currently assessed as having a moderate eligible need
Specific	To make sure peoples needs have not substantially changed
Measurable	Can be measured against a baseline snapshot of all service users on a moderate eligibility if the proposals are accepted
Achievable	Reports can be generated to compare against the baseline snapshot
Relevant	Yes will allow an analytical comparison to be competed.
Timed	September 2011

Objective/Target:	Signposting of all people currently assessed as having a moderate eligible need who may loose services if the proposals are accepted
Specific	Support all people currently assessed as having a moderate eligible need loosing services to find alternative support in the voluntary and independent sectors
Measurable	Records can be made of all people loosing Council services and the alternative support they fine (

Achievalue	Reports can be generated on the records made of alternative services
Relevant (Q)/	Yes will allow a check to be made that all people are supported to find other provision as part of the
	proposals to alter the eligibility threshold
Timed	December 2011
•0	
Objective/Target:	To see if any specific particular groups do experience a negative impact by the Fair Access to
	Care Services Cabinet Proposals 23 November 2010.
Specific	To make sure no specific particular group experiences a negative impact
Measurable	Can be measured against the baseline snapshot of all service users taken in February 2011
Achievable	Reports can be generated to compare against the baseline snapshot.
Relevant	Yes will allow an analytical comparison to be competed.
Timed	12 months from introduction

Monitoring and reviewing - incorporating into performance management Please summarise your objectives and targets in this table with your proposed monitoring and reporting arrangements

Objective	Planned action	Target perfe			Responsible	Reporting
		2011/2012	2012/13	2013/14	lead officer	cycle, for example, quarterly
Raise awareness of the support people from minority communities can get from the Council	Include as an outcome for the Information, Advice and Advocacy project within transforming social care. This can be compared against the baseline snapshot of all service users taken in February 2011 to see if the numbers of people from minority communities using services increases.		April 2012	April 2013	Sally Courtis	Annual
Work with people from minority communities to	Include as an outcome for the Market Development project within		April 2012	April 2013	Perveez Sadiq	Annual

Objective	Planned action	Target perfo	rmance		Responsible lead officer	Reporting cycle, for example, quarterly
		2011/2012	2012/13	2013/14		
develop appropriate social care support for their cultural requirements	transforming social care. This can be compared against the baseline snapshot of all service users taken in February 2011 to see if the numbers of people from minority communities using services or taking personal budgets increases.					
Assess the feasibility and affordability of changing the Electronic information systems to produce reports covering peoples current and past interventions	Include in the review of the Electronic information systems provision to see if the current or future system can produce reports that detail more information.	Zeptember	200		Perveez Sadiq	One off
Re-assessment of all people currently assessed as having a moderate eligible need	To make sure peoples needs have not substantially changed Since their last assessment	September 2011		1757	Sally Curtis / Brian Frisby	One off
Signposting of all people currently assessed as having a moderate eligible need who may loose services if the proposals are accepted	To support all people currently assessed as having a moderate eligible need loosing services to find alternative support in the voluntary and independent sectors as part of the proposals to alter the eligibility threshold	September 2011			Sally Ourtis / Brian Frisby	One off
To see if any specific particular groups do	To make sure no specific particular group experiences a negative		April 2012	April 2013	Perveez Sadiq	Brinuar
