

Your Life, Your Choice

...building care and support in Derby

Derby City Council

Our vision for Derby

*“ Our vision for people in Derby is that they live
happy, healthy and fulfilling lives ”*

Derby City Council

What are the challenges?

Older people in
the City aged 65+
and 80+

Profoundly
disabled children
becoming adults

Working aged
adults to pay for
and deliver support

Expectations of
the right to have
choice and control
(The Care Act)

Public spending
cuts

Derby City Council

Locally, people have told us the challenges are...

It's sometimes hard to get good **advice** and **information**

People sometimes feel they get **passed around**

The Council doesn't always **explain** changes clearly

More could be done to value people's **skills** and **strengths**

People have to **wait** too long for care and support to get sorted

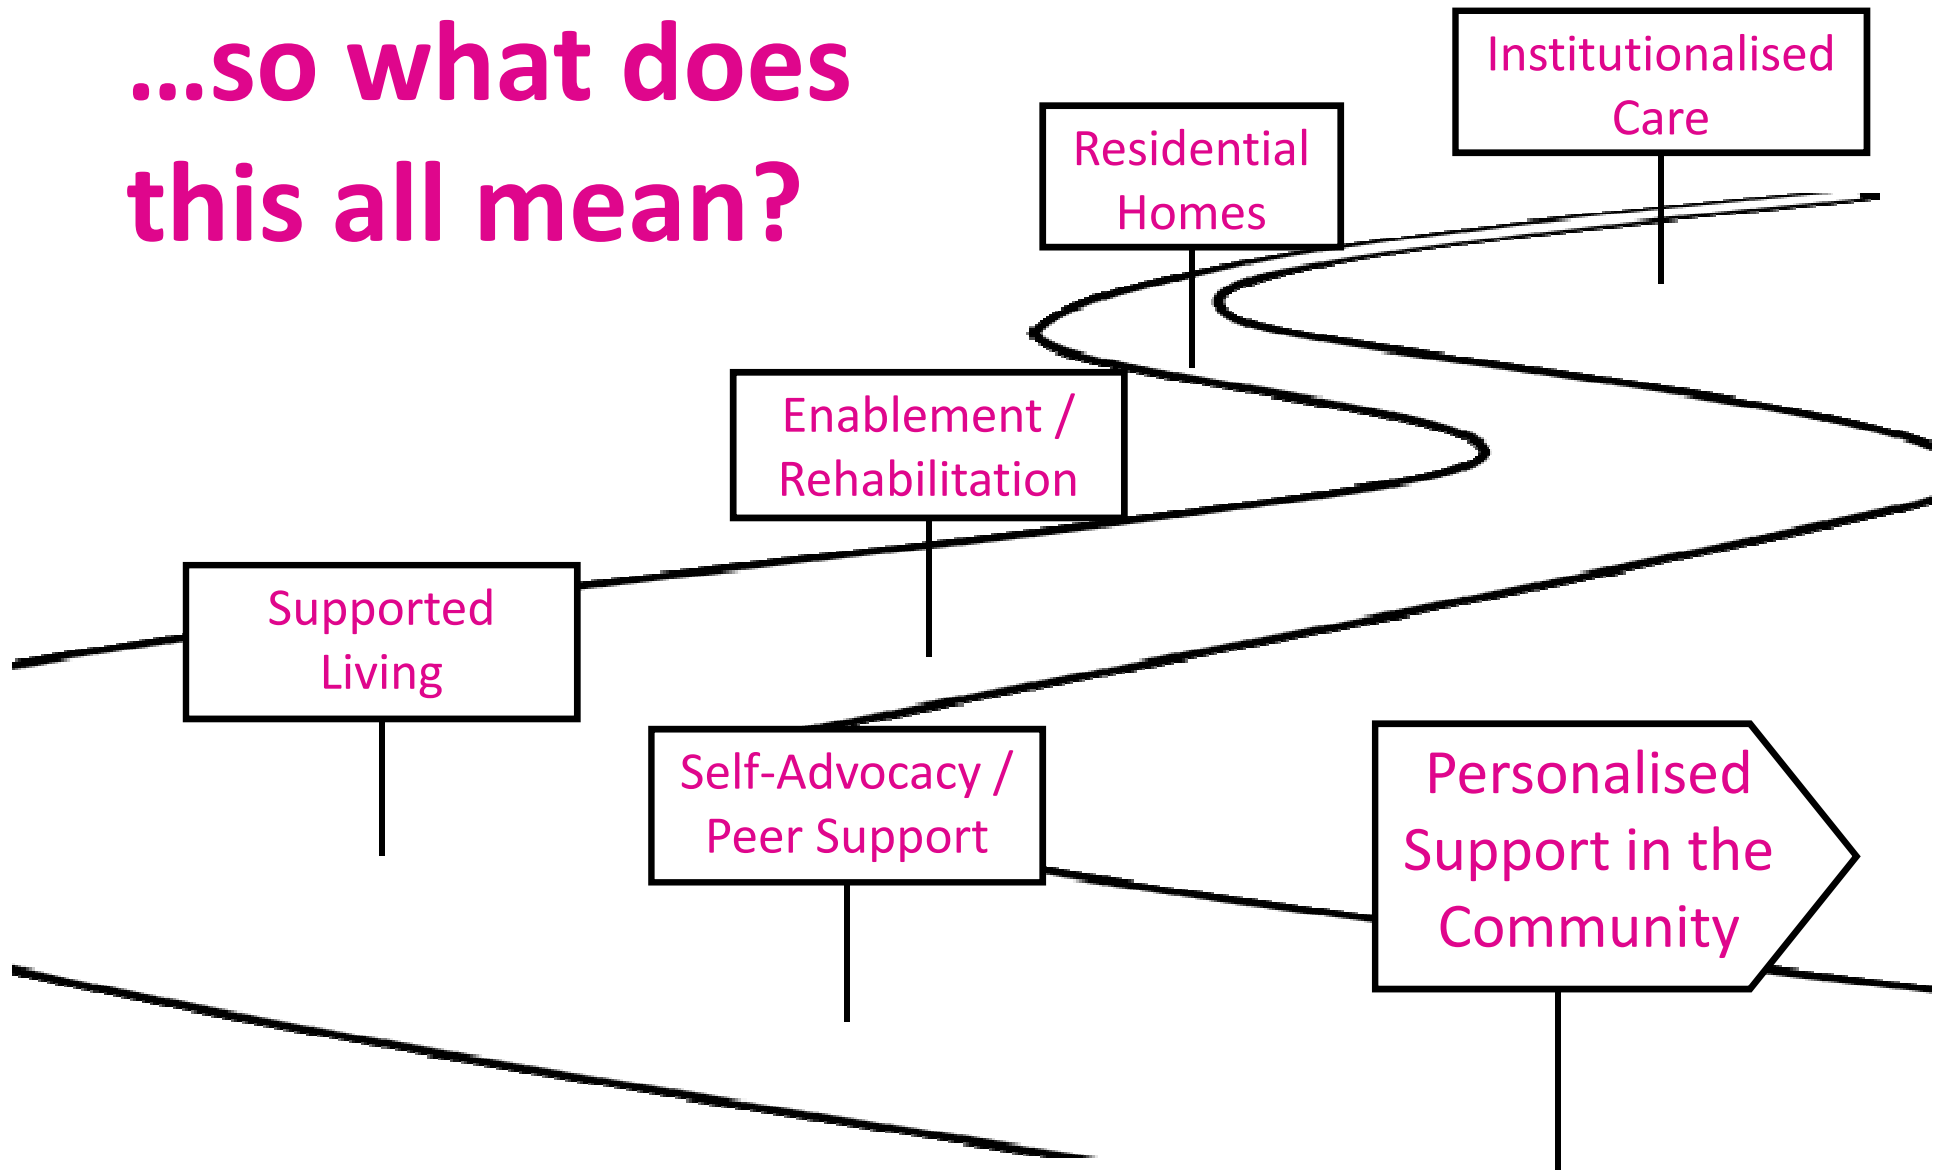

We all need to find more **creative** solutions

Derby City Council

...so what does this all mean?

Direction of travel →

Where do we go from here?...

Better information
for Derby citizens
about **care** and
support options

More people will be
supported by a
network of **family,**
friends and **people**
in their **community**

Transition2 2014 www.transition2.co.uk

Derby City Council

Russell Pollard 2014 www.Artsakh.org.uk

More people will receive **support locally** without having to approach adult social care services

Everyone **over 85** will be offered a **Winter Plan**

More **disabled people** will be **supported** to find **work**

Derby City Council

Everyone with a serious mental illness will have a **Wellness Recovery Action Plan (WRAP)**

More **carers** will be **supported** through an **Emergency Plan**

Transition2 2014 www.transition2.co.uk

Derby City Council

...a focus on recovery

Russell Pollard 2014 www.Artsakh.org.uk

More support will help people to get back **home first** after hospital

...and to help people to **recover** from physical ill health and mental illness

No one goes into long term care from an **acute** hospital bed

Derby City Council

Community Support Teams

Community Support Teams will be at the heart of making this happen

GPs, Social Workers and Community Health Staff along with Local Area Coordinators will:

- help people living with **long term conditions**
- support people to receive their care **locally**
- identify people who go in and out of **hospital**
- support people to stay in their **own homes**

...quicker help in a crisis

A **Rapid Response Service** will work with the **Community Support Teams**

Rapid Response will **stop** most people going into **hospital** or a **care home**

Doctors can get help with **one phone call**

Derby City Council

So what does all this mean?

Building on personalisation / YLYC so far

A real focus on working with people, families and communities to support each other

Local support for local people

Health and Social Care working better together

Fewer building-based services and more support to stay at home

One Derby

Our questions to you

- What do you **like** about what we've just heard?
- Is there something that has been **missed**?
- What will you do to **stay independent** and keep well without relying on the Council?
- How can the Council **support** you to achieve this?
