Report of the Strategic Director for Children and  
Young People

## Inspection and Monitoring of Children's Homes

### SUMMARY

1.1 Children's Homes are regulated and inspected by **Ofsted** as required by the Care Standards Act 2000. Inspections are based on the Children's Homes (England) Regulations 2015 and Quality Standards. Every children's home is inspected at least twice a year, receiving one full and one interim inspection.

1.2 Under the new framework, judgements are made on:

Overall progress and experiences of children and young people

- How well children and young people are helped and protected
- Impact and effectiveness of leaders and managers.

They judge the home according to a four point scale:

- Outstanding
- Good
- Requires improvement
- Inadequate

1.3 **Regulation 44** of the Children's Homes (England) Regulations 2015 requires each home to be visited by an employee of the organisation not directly concerned with the conduct of the home and a report to be written. Some visits are carried out by an independent visitor from outside of the Council. The rest are done by Managers in the Children and Young People's Directorate, who are completely independent of the Homes and have no involvement with young people placed in them. Reports of the visits are sent to Homes Managers who respond to any recommendations. The reports are circulated to Ofsted, Responsible Managers and Democratic Services.

1.4 **Elected Members** carry out annual visits to children's homes to monitor the quality of care and the welfare of children and young people. Visits fall within members' corporate parenting responsibilities.

After each visit members report on their observations and recommendations and

members are informed of actions taken as a result.

Visits to the Children's Homes are currently being planned for September onwards. The Service Manager will in July, be delivering two briefing sessions to Members which will support them to undertake their visits.
