RH Rob Hill (Press & media)  
CW Charles Walker (Press & media)  
CD Caroline Dyas (External Comms)  
DP Debbie Parker (Event management)  
BE Bob Ellis (Website)

## **CCG Overview**

Southern Derbyshire CCG brings together the combined expertise of 57 local GP practices, acting on behalf of over 500,000 patients covering Southern Derbyshire. The CCG serves a large and complex population with both urban and rural geography / demographics, containing a wide spectrum of social deprivation and health needs. Because of the wide geographical area and complex demographics 4 localities have been identified which allows for greater understanding of communities and a locality focus.

### **Large Scale Engagement already Undertaken**

Consultations across Derbyshire have already been held to give members of the public the opportunity to join the debate on finding better ways of delivering healthcare whilst at the same time meeting new and increasing demands for services and managing costs. The first stage was to develop a set of principles on which difficult decisions could be based in the future. The consultations involved 6 public meetings across Derbyshire and a survey. Over 1000 people participated across the City and County

This was a whole health and social care community approach which included: Health commissioners, Health providers, Adult Care, Voluntary Sector and the public where a range of consultation events took place and Questionnaires completed.

## Paper H

The Principles that were agreed are:

1. All services will be person-centred and will meet the needs of the person and their families or carers rather than meeting the needs of the system
  2. We will provide care flexibly across all health and social care organisations by listening to, and understanding the person's complete needs and meeting them by using all services and resources available.
  3. We will challenge assumptions about the way we work and have the courage to make changes for the better that will improve the patient experience and obtain the best value for money.
  4. We respect and value the people who use and work in health and social care services in Derbyshire and we will invest resources to support the health and well-being of our communities.
  5. We will actively seek and listen to the views of people who use and work in health and social care in Derbyshire so that we can plan and deliver services in partnership and be accountable to them.
  6. We will support people to help them to make an informed choice about lifestyle and services and identify and provide extra support for those who need and want to make positive lifestyle changes.
- 

## Event Planning – Call to Action

Target group	Methodology	Date
<b>CCG Membership</b>		
CCG Practice Engagement Events (all practices represented)		19/09/2013 05/12/2013

<b>Health and Wellbeing Board</b>	
Presentation at both Derby City and Derbyshire County meetings	Derby City: 12 <sup>th</sup> September 14 <sup>th</sup> November  Derbyshire County: 26 <sup>th</sup> September 28 <sup>th</sup> November

## Issues:

- Need to build on feedback from this years plan to avoid duplication
- What is the focus – themes of the engagement, needs a clear focus
- Information packs including publicity material, guidance. Will this be available from the centre
- Outcomes – meaningful dialogue / conversation, not just tick box
- Comparison of feedback with other areas (how will the range of views across England be represented and translated into priorities for NHS)
- Capacity of staff to plan and undertake events in short timescales
- Cost of holding large scale public events
- Analysis of the feedback particularly if survey bases (qualitative + quantitative feedback)
