1.6 The Council Constitution states that the Area Panels can 'use a delegated budget for local environmental and community purposes'. Therefore, if an application does not specifically refer to a local activity, consideration needs to be given to the appropriateness of allocating area panel funding to the project. In deciding whether to support each application, the area panel will assess the funding request against the funding criteria and its priorities.

1.7 The funding criteria state that applicants need to provide a service in response to the needs of local residents and meet at least one of the following criteria:

- improve access for local people to existing services
- provide a service in response to an issue raised in a community update report
- contribute to improvements which will provide a benefit to local residents
- assist in providing an integrated service in response to an issue raised at an area panel meeting
- enable residents to participate in their community or at area panel meetings

Applications also need to:

- provide evidence of need for the application
- show evidence that ongoing maintenance or revenue costs have been approved by the relevant Council department, if necessary.

1.8 The priorities for supporting an application are that it:

- is from a voluntary or community group
- shows evidence of match funding or self help
- provides a service in response to the needs of local residents
- will directly benefit people living in the geographical area covered by the area panel
- shows evidence of how the project will be sustained beyond the period of funding, if it is not a one-off project
- contributes to the delivery of one or more of the Council's corporate objectives.

- 1.9 In most circumstances, the amount of funding that the area panel will award to an applicant will be between £50 and £2,000. However, the area panel does have the discretion to award more if it considers the application to be a priority for the area.
- 1.10 If these five proposals are approved, the implications for the total budget for Area Panel 3 in 2005/6 will be:

| <b>Area Panel 3</b>  | <b>£</b>         |

### IMPLICATIONS

#### Financial

- 1.1 Area panels must consider priorities within the area when considering requests for funding. Not all requests that meet the criteria will be considered a priority. When supporting or rejecting an application over £25,000, Area Panel 3 must give reasons for its decision.

#### Legal

- 2.1 Area Panel 3 has delegated authority to use its budget for local environmental and community purposes.
- 2.2 Section 19 of the Local Government (Miscellaneous Provisions) Act 1976 empowers the Council to offer grants to voluntary and other organisations to provide any recreational facilities.
- 2.3 Any decision involving the making of a grant or loan over £25,000 to any voluntary body is deemed to have a significant impact on two or more wards and is therefore a key decision.
- 2.4 After a key decision has been taken, the Director of Corporate Services must publish a record of every executive decision taken at that meeting within two days of that meeting. The record must include a statement of the reasons for each decision and any alternative options considered or rejected at the meeting. No action will be taken on any such decision for five clear days from the date of publication.

#### Personnel

- 3.1 None other than those included in the application forms.

#### Equalities impact

- 4.1 None other than those included in the application forms.

#### Corporate objectives and priorities

- 5.1 The provision of grants to community projects can contribute to the delivery of the Council's key objectives and priorities. The summary of each project in Appendix 2 includes an indication of how each one contributes.

**Description:**

Aasra is a new group set up in October 2005. They aim to support the needs people living in Normanton and Arboretum wards and from Asian communities. They provide support for carers caring for elderly people or people with learning difficulties. The project will benefit about 15 elderly people and younger people with learning disabilities. There are activities that they can access during the week at the weekend there is currently no provision available. Saturday sessions will provide respite for the carers and opportunities for those being cared for to socialise and reduce isolation at weekends.

The gap in weekend services has been left by Aekta Carers, which closed in September 2005. Some volunteers then conducted some research involving over 70 carers who identified the need for Saturday care. Aasra was then set up in October to provide low-level service to older people from the Asian community. This service is supported by Social Services who have provided a grant of £1,000 towards equipment to start up the project.

Donations by individuals, committee members and in kind contributions will help cover the estimated costs of £1,000 for food, refreshments, speakers and other activities including yoga, art and craft, jigsaws and board games. Sessions will run from 9.30am until 2.30pm on a Saturday. This funding request is to cover the transport costs for the first year estimated at £3000 based on a quote from Derby Community transport.

Aasra aims to apply for other funding including Small Change to develop the project in the future.

**Applicant 5:** Ikhlas Foundation  
**Project:** Saturday/Sunday School  
**Total cost of project:** £9,540  
**Amount of funding requested:** £3,060  
**Wards:** Normanton and Arboretum

**Description:**

The group was established in 2000 to provide benefits for the community, in particular young people. The group provides homework clubs, residential outings, a community newsletter and has recently been awarded a 5 years community radio licence to broadcast in the Normanton area.

The group set up a Saturday school in 2005 to provide additional teaching support for 30 weeks on Saturdays to 30 students in year 7 who were underachieving in local schools in English, Maths and Science. In November 2004 Area Panel 3 funded £2,100 for teachers salaries for 11 weeks. Derby City Youth Service also funded the project and paid for the salaries for the other weeks. However, it was noted at Area Panel 3 in November 2004 that the project did not appear sustainable.

The project achieved improvements in all three subjects with the percentage working to level 5 and level 6 standards increasing from 17% to 60% in Science, from 13% to 50% in Maths and 13% to 36% in English. The group are continuing the Saturday school in 2006 for 36 weeks from a £3,000 grant from Small Change and from Derby City Youth Service funding making up the difference.

This application for funding to the area panel is to develop the project in 2006 to start a Sunday school session and also to include year 8 children who are underachieving. The funding will pay for 17 weeks starting in March 2006. The classes will aim to raise standards and attainment levels of the students who take part. Schools, community centres and libraries will be used to publicise the classes. The funding will again be used to pay for teachers at the rate of £15 an hour. Each of the 17 sessions includes three hour teaching time and one hour planning and marking time. The total salary for each week is £180 with £60 for each teacher for each session.

**Project:** Central heating boiler

**Total cost of project:** £2,232

**Amount of funding requested:** £1,674

**Wards:** Normanton, Arboretum and Abbey

**Description:**

The Derby West Indian Association Credit Union was set up in 1980 and provides a service to over 350 people. 80% live in Area Panel 3 area.
