

Capital Programme 2006/7 – 2008/9

SUMMARY

- 1.1 This report seeks approval to changes to the approved capital programme. The changes involve ...
- The need to reflect within the 2006/7 to 2008/9 programme the effect of slippage from 2005/6, plus a series of other individual decisions within a consolidated programme. All of these changes have previously been approved. The restatement changes the 2006/7 programme from the £79m approved originally in March 2006 by Council to £95m now.
 - Further decisions are also now sought to approve other changes to capital schemes which will reduce the 2006/7 programme by £4m from this restated base, to £91m.
- 1.2 Compared to the original capital programme for 2006/7 to 2008/9 approved by Council in March 2006, the programme totals for 2006/7 has increased by £11m and the total over the three year period to 2008/9 has increased by £14m. This mainly reflects a combination of new programme approvals supported by equivalent external funding and approved slippage from 2005/6 matched by equivalent funding. The report confirms that, taking account of these variations and those to the 2005/6 programme, planned total borrowing and net unsupported borrowing has not increased above levels planned for in March and also that internal sources of funding remain adequate to deliver these plans.
- 1.3 The further decisions sought on changes to the programme include:
- Additional New Deal schools modernisation funding from DfES
 - Connecting Derby additional external funding from DoT to meet scheme shortfall
 - Markeaton Camp Phase 1 flood defence additional Defra funding
 - Museum Military Gallery additional lottery funding
 - Re-profiling of expenditure on QUAD
 - Reduction of earlier estimates of funding available to the vulnerable persons scheme within the housing private sector programme.
- 1.4 The report also reports on monitoring of the progress in implementing the capital programme to date. Of the 2006/7 programme, 51% of schemes are on site or completed and a further 6% are at tender stage. Elements of the programme that carry relatively high risks in terms of costs, funding or performance delivery have also been identified.

- 1.5 Approval is sought for full scheme commencement to a series of schools works, the Museum Military Gallery and Mickleover Library under Financial Procedure Rules.
- 1.6 The report also sets out the impact of debt restructuring activity on the Council's budget and borrowing, and makes recommendations to full Council to approve changes to the prudential limits applying to borrowing and to the limits on investments of above 1 year's duration, following reviews by external advisers.
- 1.7 Subject to any issues raised at the meeting, I support the following recommendations.

RECOMMENDATIONS

- 2.1 To recommend Council to approve a revised capital programme for 2006/7 to 2008/9 as set out in this report, with the 2007/8 and 2008/9 programme having indicative status consistent with previous Cabinet decisions, other than where full scheme commencement approval has been given.
- 2.2 To note the results of monitoring progress in delivery of this capital programme.
- 2.3 To approve the full commencement of the capital schemes listed in Appendix 6.
- 2.4 To note debt restructuring activity undertaken during 2006/7 to date and the ongoing revenue budget savings generated.
- 2.5 To recommend Council to approve a revised set of prudential indicators as listed in Appendix 7, including revisions to the affordability indicators, the capital financing requirement, the operational boundary and the authorised limit on borrowing, and the limits on non-specified investments above one year's duration.

Capital Programme 2006/7 – 2008/9

SUPPORTING INFORMATION

1. Restatement of Approved 2006/7 Capital Programme

- 1.1 The original approved capital programme reported to Cabinet on 22 Feb 2006 was £79m. Since then there have been a series of Cabinet approved changes to capital schemes which now need incorporating into the capital programme. These are summarised in Table 1 below and detailed in Appendix 2, showing the date of Cabinet authorisation.
- 1.2 After incorporating these changes the restated 2006/7 programme now totals £95m as shown in Table 2 below.

TABLE 1a – 2006/7 Restated Approved Capital Programme				
		Programme Changes		
Department	Original Capital Programme	Total Approved Slippage from 2005/6	Previously Approved Changes	Restated Approved Capital Programme
	£'000	£'000	£'000	£'000
Children & Young People	24,647	1,514	3,809	29,970
Regeneration & Community	24,472	833	3,311	28,616
Resources – Housing	22,379	1,662	0	24,041
Resources – E Services	4,059	334	(2,679)	1,714
Environmental Services	2,962	774	1,744	5,480
Corporate & Adult Social Services	1,069	1,229	2,604	4,902
Total	79,588	6,346	8,789	94,723

- 1.3 The total approved slippage shown in Table 1a above consists of three elements, all of which have already been previously reported and approved. Table 1b below shows how the slippage figure is made up.

Table 1b – Reconciliation of Total Approved Slippage from 2005/6	£'000
2005/6 Slippage reported 14 March 2006 Cabinet (final monitoring report of 2005/6)	3,482
2005/6 Outturn slippage reported 1 August 2006 Cabinet	5,044
2006/7 Spend b/fwd to fund 2005/6 spend reported 1 August 2006 Cabinet	(2,180)
Total Approved Slippage from 2005/6	6,346

- 1.4 The revised funding of the 2006/7 programme following the changes is shown below.

Table 2 – Funding breakdown for 2006/7 Programme			
Funding Source	Original Capital Programme £'000	Previously Approved Changes and Slippage £'000	Restated Approved Capital Programme £'000
Supported Capital Expenditure (Revenue)	16,390	(1,161)	15,229
Supported Capital Expenditure (Capital)	21,637	3,329	24,966
Unsupported Borrowing -			
Corporate	3,740	599	4,339
Service Financed	2,117	826	2,943
Spend to Save	1,308	322	1,630
Housing Major Repairs Allowance	7,465	642	8,107
Government Grants	8,782	6,526	15,308
Capital Receipts	7,716	1,057	8,773
External Contributions	3,418	1,371	4,789
S106	581	706	1,287
Lottery	812	138	950
Revenue/Earmarked Reserves	5,622	780	6,402
Total	79,588	15,135	94,723

2. Further Revisions to the Capital Programme

2.1 Further decisions are now sought to amend the 2006/7 approved programme from the £95m restated total above. These amendments are detailed in Appendix 3 and those most significant are also explained in the text below. Changes have been split into the following categories of change:

- additions of new schemes backed with new external funding secured
- re-phasing of spend profiles between 2006/7 and 2007/8 following scheme progress reviews
- other changes – such as where costs are now in a better position to be confirmed
- allocations to individual schemes from approved block programmes for specific funding streams, budget transfers between schemes within an individual department's programme.

2.2 Details for each department are set out in Table 1 of the departmental annexes at Appendix 3. Table 1 of the Annex shows the movement by category of change from the latest approved programme to the revised programme. A summary of the further revisions is shown in Tables 3a and 3b below, together with the effect of the restatement of the 2006/7 programme.

Table 3a Summary of Programme Revisions				
Type of Change	2006/7 £000's	2007/8 £000's	2008/9 £000's	Total £000's
Restated Approved Programme (Table 1)	94,723	62,077	49,845	206,645
Additions	3,202	44	4,847	8,093
Rephasing	(3,193)	2,483	710	0
Other	(3,775)	(2,359)	0	(6,134)
Reallocation within Programme	0	0	0	0
Total Further Revisions	(3,766)	168	5,557	1,959
Revised Approved Programme	90,957	62,245	55,402	208,604

Table 3b Restated Total Programme				
Type of Change	2006/7 £000's	2007/8 £000's	2008/9 £000's	Total £000's
Revised Approved Programme	90,957	62,245	55,402	208,604
Unallocated Corporate resources		323	758	1,081
Revised Total Programme	90,957	62,568	56,160	209,685
Original Total Programme	79,588	66,588	49,946	196,122
Net changes in Total Programme	11,369	(4,020)	6,214	13,563

2.3 The total revised programme and funding for 2006/7 is summarised below:

Table 4 – Revised 2006/7 Programme and Funding			
Programme	Restated Approved Programme £000's	Further Revisions £000's	Revised Programme £000's
Children & Young Peoples Services	29,970	(233)	29,737
Regeneration & Community Services	28,616	(2,096)	26,520
Resources – Housing	24,041	(1,285)	22,756
Resources – E Services	1,714	(140)	1,574
Environmental Services	5,480	61	5,541
Corporate & Adult Social Services	4,902	(73)	4,829
Total Programme	94,723	(3,766)	90,957
Funding 2006/7	Restated Approved Programme £000's	Further Revisions £000's	Revised Programme £000's
Supported Capital Expenditure (Revenue)	15,229	1,111	16,340
Supported Capital Expenditure (Capital)	24,966	(3,426)	21,540
<i>Unsupported borrowing</i>			
Corporate Programme	4,339	(315)	4,024
Service Financing	2,943	(150)	2,793

Revenue/Revenue Reserves	2,136	(60)	2,076
S106	1,287	128	1,415
Total Funding	94,723	(3,766)	90,957

2.4 Key programme changes to note are explained below with additional information provided in the annex sheets to Appendix 3.

2.5 Children and Young Peoples Services

- New Deal condition/modernisation funding allocation (£670k) increase as original budgeted figures were only based on indicative approvals from the DfES
- Playing for Success Derbyshire County Cricket Club (£100k) new funding awarded from the DfEs for a study centre of £75k and a further £25k of revenue funding.

Regeneration And Community Services

- Connecting Derby (£750k) additional programme in 2006/7 for Connecting Normanton met by European grant funding. This adds to the total lifetime costs above that which were previously recognised in the complete programme but in practice addresses in part the shortfall in Connecting Derby previously reported to Cabinet.
- The construction of Friargate Studios is nearing completion and the building is due to open in mid September. Since the original estimates were prepared the construction cost has been revised as a result of unavoidable cost increases and additional items required to finish the building to a standard which will be attractive to the target user group. The total scheme cost to completion is now £2,638k, an increase of £157k (6.3%). To fund this increase in cost, additional funding has been secured from ERDF £29k and Derbyshire Enterprise Agency £25k. A bid has been submitted to EMDA for £64k and will be presented at their next board meeting on 21 September. The Council would have to fund the balance of £39k. £34k of this balance is provided for within this revised capital programme, to be funded by additional unsupported borrowing. A further report is now expected to be brought to Cabinet in October to update members on the revenue funding of Friargate Studios.
- The lifetime cost of all flood defence schemes has increased by £3.395m. Markeaton Camp Phase 1 (£867k) costs have increased as a result of additional structural work necessary to meet health and safety requirements and reappraise ground survey information. This has been funded from additional Environment agency grant.

Savings have been made on the culvert screens scheme which will not now progress as it has not met the Environment Agency criteria for grant aid.

Initial proposals for the Littleover Brook scheme have been submitted to the Environment Agency for scoring against their criteria for grant aid. Initial indications are that the cost of works could be as high as £5.6m compared to the original estimate of £2.86m. More culverting work would be required for overflow areas than was originally estimated.

- Museum Military Gallery (£636k) has been rephased into 2007/8 due to the bidding process for lottery funding taking longer than expected. The lifetime costs have also reduced by £28k as the scheme costs have been revised. Scheme commencement details included in Appendix 6. Further Cabinet approval will still be required to commit expenditure beyond this design stage.
- QUAD expenditure (£1,684k) has been rephased into 2007/8 from 2006/7 due to delays caused by changes in the design of the building to meet planning consent and building regulations.
- Townscape Heritage Initiative (£181k) reduction of which £49k is being rephased into 07/8 and £132k is due to the dropping of the scheme 2-8 The Strand because the costs were higher than expected and the physical

constraints of starting and completing the work within the timescales permitted by external funders. The lifetime costs have therefore had a net reduction of £132k.

Resources – Housing

- Rosehill Market Renewal (£98k) has increased due to the original government allocations for new capital grant for specific funding for major interventions of the non council housing programme coming in higher than originally estimated. This increase therefore constitutes a lifetime cost increase.
- Assistance to Vulnerable Households (£762k) has reduced as original estimates for the general allocation of capital grant were received lower than that estimated. This reduction therefore constitutes a lifetime reduction.

Resources – E Services

- E Derby unallocated (£245K) reduction due to unused revenue funding that will not now be carried forward into 2006/7.
- Data Warehouse Project (£82k) funding received from New Deal and the Early Years department to provide a 'one stop shop' for data provided by partner organisations, and local surveys for local information. The funding will be used largely to complete functional development with the remainder to purchase the required IT software and hardware.

Environmental Services

- Heatherton Community Centre (£179k) – Section 106 funding applied to build a new community centre at Heatherton. A further £44k will be incurred in 2007/8 and has been added to the programme accordingly.
- Neighbourhood Environmental Action Team (NEAT) (£150k) reduction to the lifetime scheme cost as the equipment is now being purchased directly by NEAT.

Corporate and Adult Social Services

- Mental Health (£73k) rephased into 2007/8 as the integration of the Learning Disability services within Derby has been put on hold.

3. Revisions to Programme Funding and Resources

- 3.1 Revisions to the programme have a corresponding effect on overall funding sources which in turn has implications for prudential indicators and grant conditions. Table 5 below shows the movement in borrowing which have occurred as a result of the programme revisions.

Table 5 – Movement in Borrowing						
	Supported Borrowing		Unsupported Borrowing			
Original Approval (March 06 Cabinet)	SCE (R)	SCA	Corporate	Service Financed	Spend to Save	Total Borrowing
	£'000	£'000	£'000	£'000	£'000	£'000
2005/6	14,414	18,915	3,121	2,724	1,372	40,546
2006/7	16,390	0	3,740	2,117	1,308	23,555
2007/8	9,568	0	2,535	1,108	812	14,023
2008/9	8,704	0	2,000	200	120	11,024
Total Original Revised Programme (Table 4 of this report)	49,076	18,915	11,396	6,149	3,612	89,148
2005/6 Outturn (August 06 Cabinet)	14,027	18,915	2,175	2,366	1,048	38,531
2006/7	16,340	0	4,024	2,792	1,664	24,820
2007/8	9,644	0	2,742	1,108	812	14,306
2008/9	8,704	0	2,110	200	120	11,134
Total Revised	48,715	18,915	11,051	6,467	3,644	88,792
Net Change increase/ (decrease)	(361)	0	(345)	318	32	(356)

- 3.2 Table 5 demonstrates the continued affordability of the Council's borrowing plans. Cumulatively, over each year to 2008/9, total borrowing in support of this programme is below the level planned at the time of the March 2006 budget. Cumulative net borrowing by the end of 2008/9 is £356k lower. The revenue budget impact of the slippage in expenditure funded from 2005/6 borrowing has already been reflected in the 2005/6 revenue budget outturn report although the continuing impact in 2006/7 may be quite marginal.
- 3.3 Internal monitoring has also confirmed the availability of adequate levels of capital receipts to provide internal funding of capital spending consistent with this revised programme to 2008/9. Capital receipts are relatively volatile but the balance of the capital receipts reserve by 2008/9 is forecast to be at or above levels planned for in March 2006. Updated receipt forecasts will be provided as part of planning for the 2007/8 to 2009/10 capital programme.
- 3.4 Any other issues around the direct revenue financing of the capital programme should be reflected in the revenue budget monitoring report.
- 3.5 The Council's Treasury Management Strategy enables the Corporate Director - Resources and Housing to exercise delegated authority to restructure the Council's accumulated borrowing to take advantage of market opportunities, delegated authority being necessary given the need to respond quickly to market opportunities. To date during 2006/7, £58m of old debt has been subject to restructuring. This has involved redeeming debt of between 8 and 19 years duration and replacing it with

equivalent amounts of longer dated HM Treasury debt of between 21 and 41 years duration. All debt is held at fixed interest rates. The effect has been to reduce the ongoing cost of the Council's borrowing met by the General Fund by around £120,000 per annum, or 0.5% of the General Fund's share of the total restructured debt.

- 3.6 The Council is able to predict overnight movements on interest rates applying to HM Treasury debt and consequently, during these restructurings, marginal advantage can sometimes be gained at nil risk by taking new borrowing in advance of the repayment of the old borrowing, or vice versa. This was the case in the most recent restructuring in August. The consequence of this was that for two days in August the Council's total borrowing rose temporarily by £12m above a planned operational limit for normal Treasury Management operations, until £30m of the old debt was repaid. Cabinet is asked to note these circumstances and also the fact that the Council's borrowing has at all times remained well within the authorised boundary, which constitutes a legal limit for the year.
- 3.7 The Treasury Management budget will be revised in due course to reflect the impact of the revised capital programme and the recent debt restructuring, together with other influences on the budget. The revenue monitoring report to this Cabinet currently projects a net £600k underspending for 2006/7 for this budget.

4. **Monitoring of the 2006/7 Capital Programme**

- 4.1 This part of the report provides members with details of actual expenditure and scheme progress against the revised 2006/7 Capital Programme. The overall monitoring position is highlighted below with details for each department set out in Tables 3 to 5 within each annex to Appendix 3.

Table 6 – Monitoring Against Revised Budget		
Total Programme 2006/7	£000's	% of revised programme
Actual spending to 31 July 2006	14,916	16.40%
Progress against revised programme:		
Completed	3,056	3.36%
On site	46,584	51.22%
Tender stage	5,784	6.36%
Design stage	20,869	22.94%
Feasibility/preliminary design/consultation stage	5,223	5.74%
Funding streams/other block programmes yet to be allocated	9,441	10.38%
Total Current Planned Year End Spending	90,957	100%

- 4.2 Departments are now continuing to review all completed schemes to ensure that all outstanding payments are made and that actual scheme spending against budget is

confirmed. Actual cash spending by 31 March 2007 is essential to ensure full application of external funding and supported capital expenditure allocations.

- 4.3 39% of schemes are still not yet at tendering stage. These projects will be closely monitored to ensure that schemes are completed by the end of the year wherever possible. There is clearly a possibility of some slippage and a further update will be provided in the next report to Council Cabinet in November.
- 4.4 Details for each department's programme set out in the tables in the annexes to Appendix 4 show the following:
- Table 3 - spend to July 2006, current expected year-end spend and variances against the revised programme
 - Table 4 – progress summary providing an analysis of the number, budget value and percentage of each department's programme at each stage of completion
 - Table 5 – main monitoring and progress issues to note.
- 4.5 51% of schemes are now on site which indicates half of the programme is now in progress. Completed schemes are at a minimum at this early stage in the year and a summary of these are provided at Appendix 4.
- 4.6 Departments will be carrying out regular monitoring against the revised programme a further report monitoring progress will be brought to Cabinet on 28 November 2006.
- 4.7 For the first time each department has identified as part of the monitoring exercise those budgets which could pose the greatest risk for the authority for example, in terms of potential cost risks, loss of resources and meeting performance targets. A summary of those budgets can be found by department at Appendix 5 with an explanation of the basis of the risk in each case and the status of the scheme. This is provided for information only and the designation does not in itself mean that the identified risks are being realised. The revised approach to risk budget monitoring generally is explained further in the revenue budget monitoring report on this agenda.

5. Scheme Commencements

- 5.1 Financial Procedure Rules require Cabinet approval for the commencement of schemes over £100,000. Attached at Appendix 6 are summaries of schemes requiring approval to commence. These schemes and funding are included in the approved capital programme for 2006/7.
- 5.2 These schemes requiring approval are, specifically:
- St Martins Special School boiler plant (£145k)
 - Conversion of Southgate Infants to PRU (£137k)
 - Phase II Replacement Windows Derby Moor School (£470)
 - Borrow Wood Infants School partial rewire (£120k)

- Wren Park Primary School partial rewire (£196k)
- Shelton Junior School replacement heating system (£200k)
- Multi School Project Gas under building (£110k)
- Reigate Primary School boiler plant replacement (£144k)
- Mickleover Library (£1,085k)
- Museum Military Gallery Refurbishment (£643k)

5.3 It should also be noted that a separate report on this cabinet agenda seeks authority to delegate commencement of the construction phase of QUAD to the Council's legal signatories through the contract approval.

6. Prudential Indicators - Borrowing

6.1 It is necessary to update the formal prudential indicators approved by Council, which limit the Council's overall borrowing, to maintain consistency with the impact of the revised programme of capital expenditure as reported here. In addition, some further changes are necessary to the prudential indicators for the technical reason explained below. A revised set of prudential indicators is presented in Appendix 7 for approval.

6.2 The continued affordability of the revised capital programme has already been dealt with in Section 3 of this report.

6.3 Our Treasury Management external advisers had been asked to review the Council's method of calculation of its prudential indicators on borrowing. They have recommended that the method of calculation of the Capital Financing Requirement be amended to a basis that is reconciled directly to the form of the Council's consolidated balance sheet. The capital financing requirement is essentially the amount that the Council would need to borrow to finance its new capital programme and meet past commitments. The main change is that advanced payments to PFI providers as part of the PFI for schools, which are treated as deferred consideration in the Council's accounts, are to be included in the calculation of the CFR. Consequently the CFR needs to be increased.

6.4 The Council in March 2006 set the future operational boundary and authorised limit for gross borrowing at approximately 5% and 15% above the CFR, respectively, plus £1m to allow for all other forms of long-term liabilities such as finance leases. These margins continue to be maintained in the revised prudential limits for borrowing, following the changes to the CFR. The authorised limit constitutes an absolute limit on borrowing and needs to be at a margin above the CFR to provide for short term flexibility during any debt restructuring.

7. Prudential Indicators - Investments

7.1 The Council holds short term cash surpluses and the current approved policy is to limit the amounts of investments held for maturity periods of above 364 days duration to £25m with an absolute limit on such commitments of two years maturity.

At the end of 2005/6 the investment balances total of all terms was £97m and this tends to be a minimum point for the year.

7.2 Our external advisers have reviewed the sources of the Council's cash holdings and confirmed that they are closely related to the extent of the Council's reserves on its balance sheet, in a context where the Council is continuing to make full use of external borrowing to fund its capital investments. Given this, they have advised that the Council could consider increasing the limits on investments above 364 days duration. Reasons for doing so are that ...

- The scope for future borrowing in future years has reduced rapidly as the Government is increasingly supporting capital investments through grants not borrowing approvals. Hence the pace at which capital reserves and therefore investment balances could conceivably be run down in order to fund increases in the future capital financing requirement for the capital programme through internal borrowing is now reduced. Furthermore, the possible option of running down investment balances has not been pursued to date given the very low interest rates that continue to be available to fund long term borrowing, and does not currently look attractive.
- There is now more certainty over the length of the period for which some of the reserves will be held. For example, HRA reserves will continue to grow until the end of the additional ALMO subsidy in 2010.
- The Council would gain more security from being able to rely on returns on its investments in revenue budget planning for the full three year planning period if more were committed at fixed rates of beyond one year's duration, reducing the risk that planned returns could be overstated. Markets are currently anticipating further increases in interest rates following the Bank of England base rate increase in August and market investment rates have already priced in those increases, at well above budgeted investment returns.
- The Council's borrowing is almost all held at fixed rates, and this contrasts with the volatile nature of returns on investment balances where these are fixed only for very short term periods of less than one year.

7.3 It is therefore proposed that the limit on non-specified investments be increased to £35m for investments of up to two years duration, and to £15m for investments of up to three years duration. This change is also reflected in Appendix 7.

Table 4
Main Monitoring Issues To Note

There are currently 6 unallocated funding streams totalling £8,034k:

- Devolved Formula (funding source) £566k - this funding is specifically for Voluntary Aided school projects. Details of these projects will be submitted to Cabinet separately
- Voluntary Aided Programme £509k - this funding is specifically for Voluntary Aided school projects. Details of these projects will be submitted to Cabinet separately
- Schools Access Initiative £391k - this funding can only be allocated once schools have submitted proposals for projects
- New Deal Modernisation £1,628k - this is the main funding source for schools maintenance and new build projects. To date £2,716k has been allocated, the balance will be allocated to projects which will be subject to separate cabinet reports.
- Devolved Formula Schools £4,865k - this funding can only be allocated once schools have submitted proposals for projects. To date £3,544k has been allocated.
- Childrens Centre Phase II £75k - this is the balance of funding available which will be allocated to existing projects once the final budget figures are obtained

Table 4
Main Monitoring Issues To Note

LTP

There are currently 5 LTP schemes at the feasibility/preliminary design stage - 3 Local Safety schemes totalling £40k & 2 Carriageway Maintenance schemes totalling £300k. The remaining LTP block programme is well developed with the majority of the schemes currently under design or out to tender. At this stage no problems are anticipated delivering the programme.

Non LTP

There are currently 2 Flood Defence schemes at the feasibility/preliminary design stage:

- Markeaton CAMP Phase 2&3 £35k- initial design currently underway
- Littleover Brook £100k - initial proposals submitted to Environment Agency for scoring, results expected December 2006. Depending on whether this scheme meets the minimum threshold for funding then further detailed design work would be required in 2007/08.

Table 4
Main Monitoring Issues To Note

There are currently 7 schemes at the feasibility/preliminary design stage:

- Highview Neighbourhood Park £46k - consultation was complete in May 2006 & design work is planned for Autumn 2006
- Air Quality monitoring £75k - awaiting confirmation of 2006/7 funding available
- Community Centres £50k - schemes currently being decided
- Rowditch Rec improvements £300k - pending sale of site to release capital
- Moorway Lane Park £10k - pending securing external funding
- Nottingham Road Racecourse improvements £288k - pending securing external
- Alvaston Park Changing Rooms £35k - refurbishment of changing rooms delayed following arson attack

Table 4
Main Monitoring Issues To Note

Adult Social Services

The status of care homes for the elderly is currently being reviewed. The outcome of this review is expected shortly, and once the recommendations are known it will be possible to make progress on improvements to the facilities that are to be retained. Any new construction of elderly accommodation would have to be financed from 2007/08 onwards but may release some of 2006/07 National Care Standards budget.

Progress of Risk Budgets

Department	Name of Scheme	Budget £'000	Spend to Date £'000	Forecast Spend to 31/3/07 £'000	Reason for treatment as a Risk budget / Narrative
Regeneration & Community Services	Inner Ring Roads Maintenance Scheme	6,537	1,521	6,537	<ul style="list-style-type: none"> • Major scheme • Previous overspend against in year approved budget • Only recently established formal project board • Highlighted potential overspend circa £2m prior to scheme amendments (still being identified) <p>This scheme on the whole is progressing extremely well. We are making significant progress and working excellently in partnership with the contractors Tarmac. Indeed we have just received our second Considerate Contractors inspection and received 39.5 marks out of a possible 40. However we still need to take action to contain the costs of the total scheme to the approval figure of £10.8m. If we were to deliver the scheme as set out in the bid we would be looking at an overspend of around £1m. This is less than the figure that we had predicted in May.</p> <p>Costs have increased beyond the Council's control due to: detailed site investigation – estimate of increased cost: £58k Changes in design standards – estimate of increased costs: £650k Effects of higher than predicted inflation levels – estimate of increased costs: £346k</p> <p>This brings the total estimated cost increases to £1.081m. A number of options are being assessed including discussions with Dft for additional funding, and proposals to scale down elements of the scheme.</p>

	Friargate Studios	1,299	295	1,422	<ul style="list-style-type: none"> • Scheme coming to completion • Minor snagging could have a financial impact which could fall on the Council to fund <p>Unavoidable cost increases and additional items required to finish building to a suitable standard, which would be attractive to the target user group, have pushed total scheme cost to £2,638k. An increase of £157k. Additional funding has been approved from ERDF objective 2 of £35k and Derbyshire Enterprise Agency of £25k. A bid has been submitted to EMDA for £64k, the council would have to fund the balance from unsupported borrowing, with repayments from Friargate studios revenue income in future years.</p>
	QUAD	5,428	200	3,744	<ul style="list-style-type: none"> • Major scheme • Significant external funding dependent <p>Construction is due to start in October 2006, this is later than originally planned. Delays have been caused by changes to the original design of the building, necessary to meet planning consent and building regulation approval and the decision to proceed with a 2 stage tendering process to comply with best practice, as recommended by Property Services. The impact of this on the expenditure profile is to reduce the forecast spend from £5.1m to £3.7m in 2006/7 but with a corresponding increase in forecast expenditure during 2007/8 and 2008/9. The opening date is April 2008, which is within the window allowed by all the funding partners, the eligible period for claiming ERDF Objective 2 ends December 2008.</p>

Progress of Risk Budgets

Department	Name of Scheme	Budget £'000	Spend to Date £'000	Forecast Spend to 31/3/07 £'000	Reason for treatment as a Risk budget / Narrative
Resources – Housing & Advice	HRA Programme	9,930	2,204	9,930	<ul style="list-style-type: none"> General overspend possible following end of Homes Pride Programme and a reduction in the overall budget from around £35m per year for the last 4 years to £10m in 2006/7 Estates Pride work funded by revenue contribution from the HRA <p>There is a risk following the end of the Homes Pride Programme last year due to residual work required to bring the remaining homes up to the decency plus standard. The overall budget has fallen from around £35m a year over the last 4 years to around £9m in the current year, excluding Estates Pride funding. Following scrutiny by both the Council and Derby Homes, a revised programme for approval is included in this report, to help mitigate the risk. Joint monitoring of the programme will continue and further revisions will be made for approval as necessary.</p>
	Rosehill Market Renewal	5,523	48	5,523	<ul style="list-style-type: none"> Scheme plan yet to be finalised/approved and consulted upon with residents Any consequent delays through the need to re-shape the project could lead to underspend in the year and delay overall completion <p>Works are underway in some areas – for example Leacroft Road. Two additional enforcement officers are to be recruited to work exclusively on the Rosehill project. Procurement of specialist regeneration consultancy is also taking place. The Regional Housing Board has expressed satisfaction at the limited progress made so far and planned. Although latest projections show that there may be some slippage at the end of the year, it is considered unlikely that there will be any claw-back of grant received.</p>
Resources – E Services	Financial Systems Replacement	398	140	398	<ul style="list-style-type: none"> Potential risk of overspending <p>Scheme currently on Target</p>
