ITEM 7

Report of the Strategic Director of Communities and Place

**Building Neighbourhood Capacity** 

#### **SUMMARY**

1.1 Derby City Council is on an exciting journey of transformation. Following the success of our 'one Derby, one council' programme we have now launched 'Delivering Differently' encouraging all our staff to seek innovative and commercial ways to deliver our services.

The Delivering Differently Programme is a key element of the Council's strategy for becoming a modern, flexible and resilient Council. In order to deliver the large number of projects required to achieve a balanced and sustainable budget for the Council the programme needs to be delivered at pace using the knowledge and expertise we already have available to us within the Council

- 1.2 Building the capacity within communities and individuals is a crucial element of the programme and includes a range of agendas including:
  - Scoping and understanding the range and diversity of community organizations in the city
  - Encouraging communities and residents to do more for themselves in the context of reducing council and partner service provision
  - Reducing demand on council services by working across the council to identify how, where and with whom the council can manage expectations and reduce demand, by identifying, supporting and building social capital
  - Managing the transition and potential ending of neighbourhood management services, as identified as a budget saving in 2018-19
  - Building stronger partnerships with community organizations and Community Action Derby
  - Develop a city-wide partnership volunteering strategy and plan, which incorporates the priorities of the council
