

Report of the Director of Environmental Services

## TREE MANAGEMENT POLICY

## RECOMMENDATION

1. To consider the revision of the Tree Management Policy.

## BACKGROUND

- 2.1 In December 2004 the Planning and Environment Commission completed a review of Council's Tree Management Policy. One of the recommendations was that the Council's Tree Policy leaflet should be redrafted to clearly explain the Council's responsibilities for its trees and the actions it will, and will not, take in response to requests for cosmetic tree work.
- 2.2 The Policy has been redrafted and is attached as Appendix 1.
