### SUMMARY

- 1.2 As of April 2013 all NHS Foundation Trusts are required by the regulator Monitor to send an annual quality account to Health and Wellbeing Boards for their consideration and comment.
- 1.3 The draft Quality Account for 2014/15 of Derbyshire Healthcare NHS Foundation Trust was recently received for review. Due to the tight timescale required for response, the Public Health Clinical Lead, as per previously agreed process, reviewed the Quality Account and responded on behalf of the Health and Wellbeing Board:

*"On behalf of the Derby City Health and Well Being Board, Derby City Public Health acknowledges the progress that has been made within each of the quality improvement priorities during the period 2014/15.*

*We commend the Trust's on-going commitment to work collaboratively with patients, their families and their carers as is demonstrated through the implementation of a true recovery model and the development of a number of innovative ways to support effective shared care planning.*

*We welcome the development of the 'You Said, We Did' mechanism for providing feedback in response to the Friends and Family Test, it demonstrates that the views of patients, their families and their carers are central to the development and delivery of services.*

*We look forward to seeing those priorities identified for 2015/16 come to fruition".*
