

Framework providers:

CCS <http://ccs-agreements.cabinetoffice.gov.uk/category-information-and-updates/energy> - CCS is an executive agency, sponsored by the Cabinet Office

LASER <http://www.laserenergy.org.uk/about.aspx> Established in 1989, to manage Kent County Council's energy purchasing, offering packages and services to complement and support the requirements of local authorities, NHS trusts, housing associations and other public-funded bodies

West Mercia <http://westmerciaenergy.co.uk/> West Mercia Energy offers energy procurement and management on behalf of its four Owning Authorities and a number of outside bodies. The contracts cover electricity, natural gas, petroleum fuels and liquid petroleum gas.

Yorkshire Purchasing Organisation
<http://www.ypo.co.uk/contracts/category/energy#frameworks>

YPO supplies products and services, and is 100% publicly owned. This means that the profits are returned to our public sector customers, delivering even better value for money.

North Eastern Purchasing Organisation
<http://www.northeastcouncils.gov.uk/nepo> The North East Procurement Organisation (NEPO) has, over nearly 40 years, made a major contribution to both stimulating North East businesses and helping local authorities to make savings. In 2013/14 local authority spend with North East registered suppliers was significant at 63%, of which 52% was with the region's SMEs. Importantly, it is the North East's approach to procurement that enables this to happen, by working together, to fuel economic prosperity, inward investment and growth.

A review in 2014 undertook to ensure that NEPOs arrangements would be fit for purpose for the future, given the many changes that have happened over

recent years, not least in relation to the economy, and the challenges that lie ahead for local authorities and the region as a whole.

Eastern Shires Purchasing Organisation

<https://www.espo.org/services/energy-solutions.aspx>

The specialist Energy category procure, trade and provide bespoke contract support on behalf of one of the UK's largest energy consortiums. We provide compliant, competitive Energy frameworks to meet ever increasing requirements in this complex environment focusing on quality, value for money and customer needs.

We currently procure energy for over 7,500 local authorities, public and charitable sector customers in Eastern England, which account for an annual expenditure in excess of £120m. You can be confident in our knowledge of procuring the best energy prices for you and boosting savings whilst delivering a level of customer service to match
