

# Community Safety Strategy

Charles Edwards

# Introduction

**The CSP has a statutory duty to work together to tackle crime and anti-social behaviour in the District and develop a strategy to support this work**

**The Community Safety Partnership remains committed to finding new ways of working effectively and efficiently with partners, residents, and businesses to make Derby safer.**

**The Strategic Intelligence Assessment (SIA) is an annual evidence base compiled and analyzed to inform the priorities of the Community Safety Partnership (CSP).**

# Community Safety Strategy

- The Safer Derby CSP Plan 2022-2025 is a three-year rolling document.
- Identifies how the CSP plans to tackle community safety-related issues
- Delivery of this strategic plan is accountable to the Safer Derby Board which provides governance and oversight of the issues affecting Derby residents.
- The delivery of the CSP takes a whole system approach and recognises the influence of place-based risk on residents.

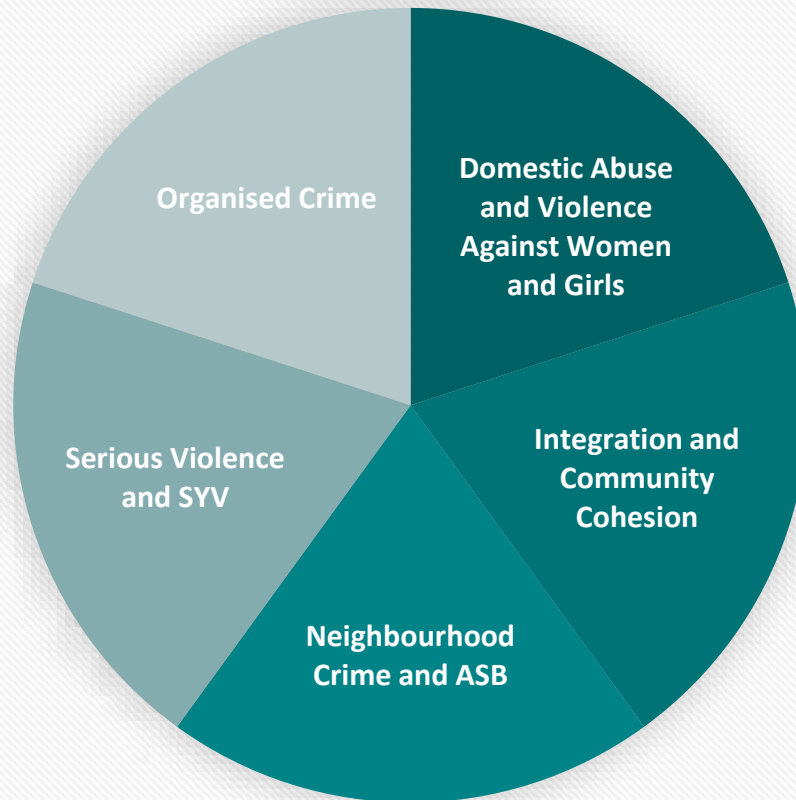

Work in partnership to address local crime and disorder priorities

Improve safety in the city for people who live, work, and visit Derby

Identify key local crime and disorder priorities through assessments and consultation

Monitor and evaluate these strategies

# Community Safety Strategy

# Community Safety Strategy

It matters because;

It is estimated that there were between 7,800 women and 3,700 men who were victims of domestic abuse.

Derby is a diverse and multicultural city where most people have respect and tolerance for one another. However, many people do not share these values and instead wish to create a divide and perpetuate hate.

Incidents of ASB might seem minor but they can have a huge impact on residents.

# Community Safety Strategy

We hope that together we can;

That everyone  
can live safe lives,  
without the  
threat or  
experience of  
domestic abuse  
or sexual  
violence.

Ensure those  
working with and  
caring for children  
are aware of the  
exploitation and the  
signs to look out for  
in children and  
young

Empower and  
resource individuals,  
families, and  
communities to play  
a role in tackling  
serious violence  
resulting in  
communities that are  
strong and resilient

# Community Safety Strategy

Together we will;

Safeguard and support those at risk of modern slavery, exploitation and organised crime by working within our communities and education providers.

Safeguard and support those at risk of being drawn into terrorism. This includes working with our community and voluntary sector

Developing a Training, Education and Communication Strategy as part of the joint City / County Strategy.

# Next Steps

**Consultation – The strategy is being developed based on the SIA and informal consultation. It is important that once the draft has been finalised, opportunities for consultation are explored;**

- **Safer Derby Board**
- **Communities Scrutiny Review Board**

**Final Amendments – Taking account of comments from consultation, changes to be made**

**Sign Off - Final sign off by 31<sup>st</sup> August 2022**
