

DERBY CITY COUNCIL

COUNCIL CABINET
13 MAY 2003

ITEM 11

Report of the Director of Development and Cultural Services

Residents' Privileged Parking Schemes – Proposed Priorities

RECOMMENDATIONS

- 1.1 To investigate, and if appropriate, take forward the introduction of two Resident Privilege Parking schemes during 2003/04.
- 1.2 To give priority to schemes in the residential area near to the City Hospital and to the Longford Street area off Kedleston Road.

REASONS FOR RECOMMENDATION

2. As set out in Appendix 1.

SUPPORTING INFORMATION

- 3.1 To ask Cabinet to consider a list of locations where interest has been expressed in the introductions of a Residents' Privileged Parking Scheme.
- 3.2 On 24 March 1999, the Planning and Technical Services Committee resolved to adopt a Residents' Privileged Parking Policy in an effort to give priority on street car parking to residents in residential areas where they are regularly precluded from parking close to their home by non-residents. Due to the workload created in investigating and implementing parking schemes it was agreed that a maximum of two schemes would be considered at any time. It was resolved that Cabinet would establish which locations should be given priority for further investigations and consultation.
- 3.3 Since the introduction of Residents' Parking Schemes in city centre streets requests for further details on Residents' Parking Schemes have been received from people living in the areas listed in Appendix 1.

For more information contact: Tara Nield Tel 715056
Background papers: Held in Traffic Management Office
List of appendices: Appendix 1 – List of Requests

IMPLICATIONS

Financial

1. The cost of carrying out the necessary investigations and possible implementation of two Residents' Only schemes can be met from the Traffic Management General budget.

Legal

2. None arising from this report.

Personnel

3. None arising from this report.

Corporate Themes and Priorities

4. The introduction of Resident Privilege Parking schemes will help to make the city "A great place to live" and will help to create "A sustainable environment"
