

Health Scrutiny Items

SUMMARY

- 1.1 The attached two reports have been submitted by the NHS health service organisations for consideration by the AHH Commission in its statutory role as the health scrutiny committee. The first report is a Derbyshire Cluster Legacy document which seeks to facilitate handover arrangements during the transition of the commissioning groups. The documents support the effective capture and transfer of organisational memory. It highlights the key issues around transition from the PCTs to the Clinical Commissioning Groups and provides signpost to supporting documentation and highlights known risks associated with the changes.
- 1.2 The second report provides a brief description of a multi-agency project to respond to future opportunities and challenges of the changing health and social care landscape. It lists the organisations.
