

Public Health Outcomes Framework

Derby

Introduction

The Public Health Outcomes Framework Healthy lives, healthy people: Improving outcomes and supporting transparency sets out a vision for public health, desired outcomes and the indicators that will help us understand how well public health is being improved and protected. The framework concentrates on two high-level outcomes to be achieved across the public health system, and groups further indicators into four 'domains' that cover the full spectrum of public health. The outcomes reflect a focus not only on how long people live, but on how well they live at all stages of life.

This profile currently presents data for the first set of indicators at England and upper tier local authority levels, collated by Public Health England.

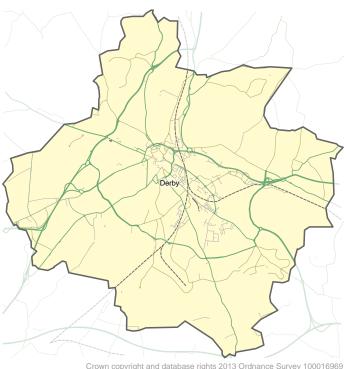

The profile allows you to:

- Compare your local authority against other authorities in the region
- · Benchmark your local authority against the England value

Public Health Outcomes Framework baseline data will be revised and corrected in accordance with the general DH statistical policy on revisions and corrections.

1.12i. Violent crime (including sexual violence) - hospital admissions for violence

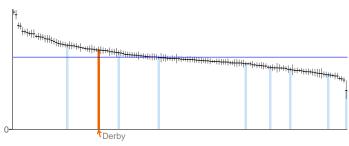

1.12ii. Violent crime (including sexual violence) - violence offences

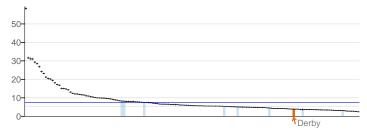

1.13i. Re-offending levels - percentage of offenders who re-offend

1.13ii. Re-offending levels - average number of re-offences per offender

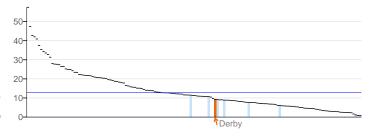

1.14i. The percentage of the population affected by noise - Number of complaints about noise

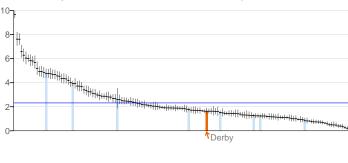

1.14ii. The percentage of the population exposed to road, rail and air transport noise of 65 dB(A) or more, during the daytime

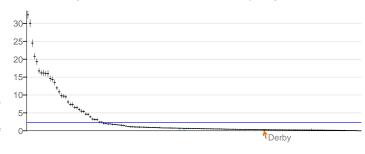

1.14iii. The percentage of the population exposed to road, rail and air transport noise of 55 dB(A) or more during the night-time

1.15i. Statutory homelessness - homelessness acceptances

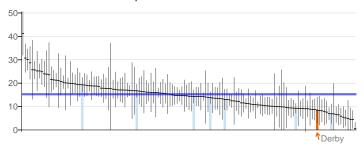

1.15ii. Statutory homelessness - households in temporary accommodation

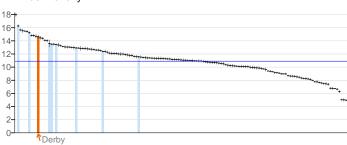

Wider determinants of health

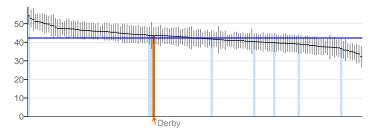

1.16. Utilisation of outdoor space for exercise/health reasons

1.17. Fuel Poverty

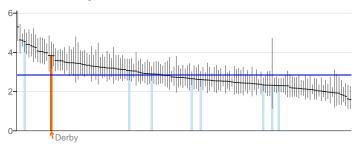

1.18i. Social Isolation: % of adult social care users who have as much social contact as they would like

Health improvement

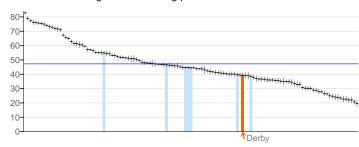

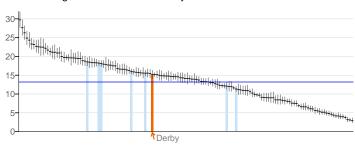

2.02i. Breastfeeding - Breastfeeding initiation

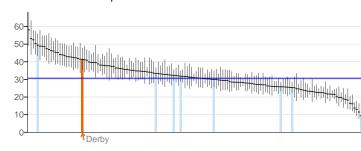

2.02ii. Breastfeeding - Breastfeeding prevalence at 6-8 weeks after birth

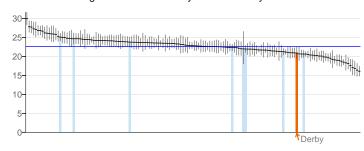

2.03. Smoking status at time of delivery

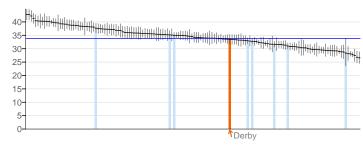

2.04. Under 18 conceptions

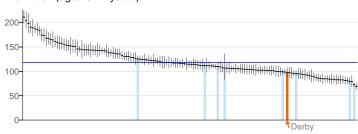

2.06i. Excess weight in 4-5 and 10-11 year olds - 4-5 year olds

2.06ii. Excess weight in 4-5 and 10-11 year olds - 10-11 year olds

 $2.07i.\ Hospital$ admissions caused by unintentional and deliberate injuries in children (aged 0-14 years)

2.07ii. Hospital admissions caused by unintentional and deliberate injuries in young people (aged 15-24)

2.08. Emotional well-being of looked after children

Key

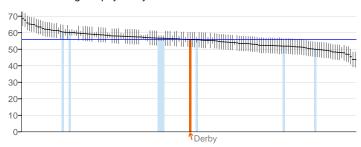

England value and confidence interval

Health protection

3.03xv. Population vaccination coverage - Flu (at risk individuals)

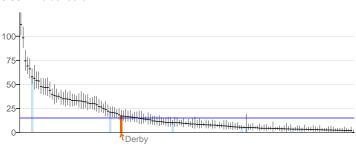

3.04. People presenting with HIV at a late stage of infection

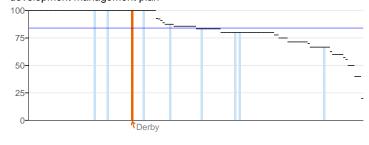

3.05i. Treatment completion for TB

3.05ii. Incidence of TB

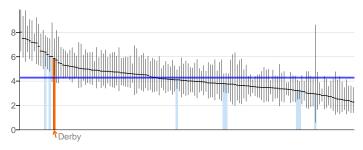

3.06. Public sector organisations with a board approved sustainable development management plan

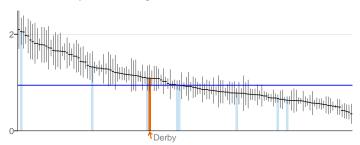

Healthcare and premature mortality

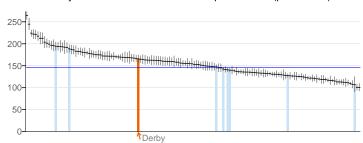

4.01. Infant mortality

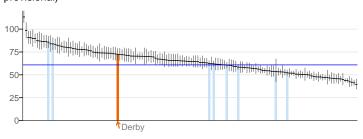

4.02. Tooth decay in children aged 5

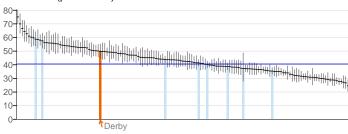

4.03. Mortality rate from causes considered preventable (provisional)

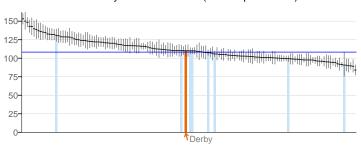

4.04i. Under 75 mortality rate from all cardiovascular diseases (revised provisional)

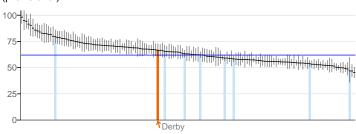

4.04ii. Under 75 mortality rate from cardiovascular diseases considered preventable (provisional)

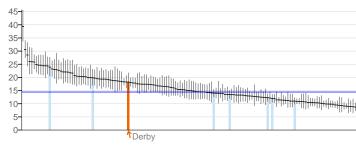

4.05i. Under 75 mortality rate from cancer (revised provisional)

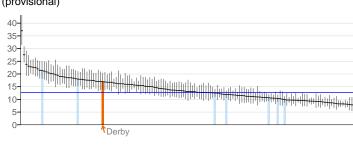

4.05ii. Under 75 mortality rate from cancer considered preventable (provisional)

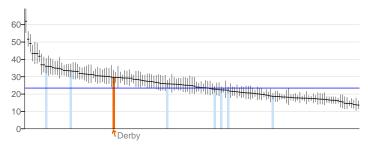

4.06i. Under 75 mortality rate from liver disease (provisional)

4.06ii. Under 75 mortality rate from liver disease considered preventable (provisional) $\,$

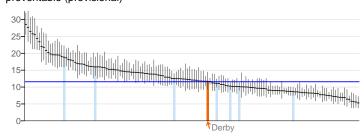

4.07i. Under 75 mortality rate from respiratory disease (provisional)

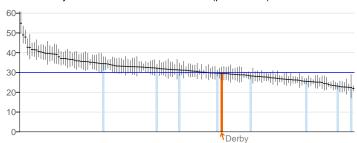

Healthcare and premature mortality

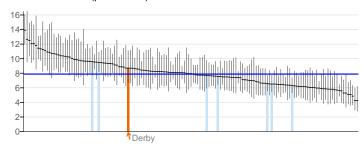

4.07ii. Under 75 mortality rate from respiratory disease considered preventable (provisional)

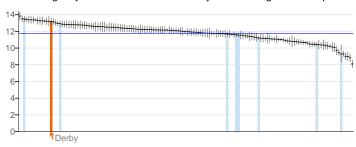

4.08. Mortality from communicable diseases (provisional)

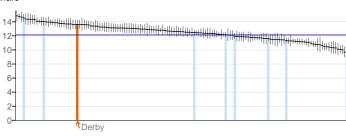

4.10. Suicide rate (provisional)

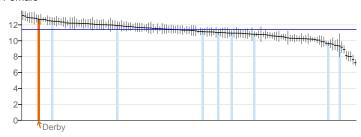

4.11. Emergency readmissions within 30 days of discharge from hospital

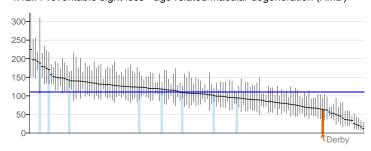

4.11. Emergency readmissions within 30 days of discharge from hospital - $\mbox{\it Male}$

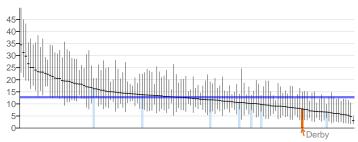

4.11. Emergency readmissions within 30 days of discharge from hospital - Female

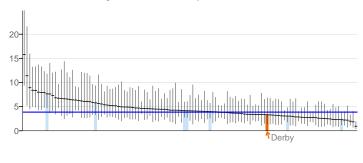

4.12i. Preventable sight loss - age related macular degeneration (AMD)

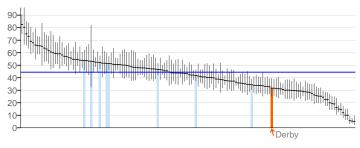

4.12ii. Preventable sight loss - glaucoma

4.12iii. Preventable sight loss - diabetic eye disease

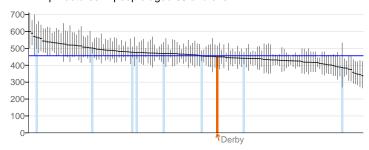

4.12iv. Preventable sight loss - sight loss certifications

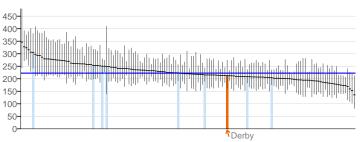

Healthcare and premature mortality

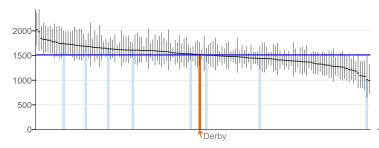

4.14i. Hip fractures in people aged 65 and over

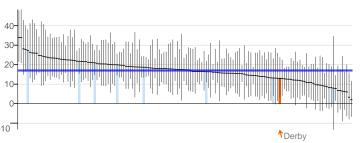

4.14ii. Hip fractures in people aged 65 and over - aged 65-79

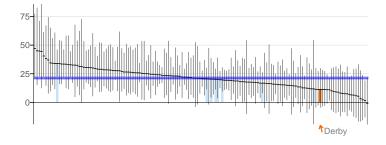

4.14iii. Hip fractures in people aged 65 and over - aged 80+

4.15i. Excess Winter Deaths Index (Single year, all ages)

4.15ii. Excess Winter Deaths Index (single year, ages 85+)

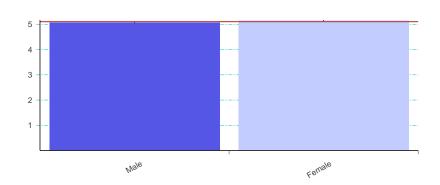

Inequalities

The Public Health Outcomes Framework focuses the whole system on achieving positive health outcomes for the population and reducing inequalities in health. The majority of indicators in this framework have the potential to impact on inequalities and we aspire to make it possible for all indicators to be disaggregated by equalities characteristics and by socioeconomic analysis wherever possible in order to support work locally to reduce in-area health inequalities where these persist. However, in this first publication, as well as breaking down some of the local authority level indicators by gender or age, we are also presenting data by equalities characteristics for a small number of indicators at national level only. These indicators are presented in this section.

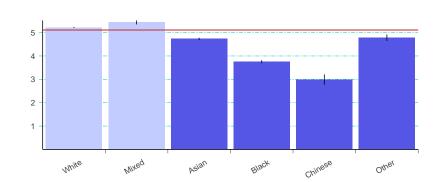

1.03 - Pupil absence - by gender England 2011/12

Definitions

Overarching indicators

0.1i- The average number of years a person would expect to live in good health based on contemporary mortality rates and prevalence of self-reported good health.
0.1ii- The average number of years a person would expect to live based on contemporary mortality rates.
0.2i- The range in years of life expectancy across the social gradient, from most to least deprived.
0.2ii- The range in years of life expectancy across the social gradient within each local authority, from most to least deprived.
0.2iv- The gap in years between overall life expectancy at birth in each English local authority and life expectancy at birth for England as a whole.

Wider determinants of health

1.01ii- % of children in low income families (children living in families in receipt of out of work benefits or tax credits where their reported income is < 60% median income) for u-16s only 1.03-% of half days missed by pupils due to overall absence (incl. authorised and unauthorised absence) 1.04i- Rate of 10-17 year olds receiving their first reprimand, warning or conviction per 100,000 population 1.05- % of 16-18 year olds not in education, employment or training (NEET) 1.06i- % of adults with a learning disability who are known to the council, who are recorded as living in their own home or with their family 1.06ii-% of adults receiving SMHS living independently at the time of their most recent assessment, formal review or other multi-disciplinary care planning meeting 1.08i- % point gap in the employment rate between those with a long-term health condition and the overall employment rate 1.08ii- % point gap in the employment rate between those with a learning disability and the overall employment rate 1.09i- % of employees who had at least one day off due to sickness absence in the previous working week 1.09i- % of working days lost due to sickness absence in the previous working week 1.10- Rate of people KSI on the roads, all ages, per 100,000 resident population 1.12i- Age-standardised rate of emergency hospital admissions for violence per 100,000 population 1.12ii- Crude rate of violence against the person offences per 1,000 population 1.13i- % of offenders who re-offend from a rolling 12 month cohort 1.13ii- Average no. of re-offences committed per offender from a rolling 12 month cohort 1.14i- No. of complaints per year per LA about noise per thousand population 1.14ii- The proportion of people affected by noise -The proportion of the population exposed to road, rail and air transport noise of 65 dB(A) or more, LAeq,16h per local authority (16h is the period 0700 - 2300) according to the results of the strategic noise mapping carried out as required by the Environmental Noise (England) Regulations 2006, as amended. 1.14iii- The proportion of people affected by noise -The proportion of the population exposed to road, rail and air transport noise of 55 dB(A) or more, Lnight (LAeq,8h) per local authority (8h is the period 2300 - 0700) according to the results of the strategic noise mapping carried out as required by the Environmental Noise (England) Regulations 2006, as amended. 1.15i- Homelessness acceptances per 1,000 households 1.15ii- Households in temporary accommodation per 1,000 households 1.16- % of people using outdoor space for exercise/health reasons 1.17- The percentage of households that experience fuel poverty based on the "Low income, high cost" methodology 1.18i- % of adult social care users who have as much social contact as they would like according to the Adult Social Care Users Survey

Health improvement

2.01- % of all live births at term with low birth weight 2.02i- % of all mothers who breastfeed their babies in the first 48hrs after delivery 2.02ii- % of all infants due a 6-8 week check that are totally or partially breasfed 2.03- % of women who smoke at time of delivery 2.04- Rate of conceptions per 1,000 females aged 15-17 2.06i- % of children aged 4-5 classified as overweight or obese 2.06ii- % of children aged 10-11 classified as overweight or obese 2.07i- Rate of hospital admissions caused by unintentional and deliberate injuries in children aged 0-14 years per 10,000 resident population 2.07ii- Rate of hospital admissions caused by unintentional and deliberate injuries in young people aged 15-24 per 10,000 resident population 2.08- Average difficulties score for all looked after children aged 4-16 who have been in care for at least 12 months on 31st March 2.13i- Percentage of adults achieving at least 150 minutes of physical activity per week in accordance with UK CMO recommended guidelines on physical activity. 2.13ii- The percentage of adults classified as "inactive" 2.14- Prevalence of smoking among people aged 18+ 2.15i- % of opiate drug users that left drug treatment successfully who do not re-present to treatment within 6 months 2.15ii- % of non-opiate drug users that left treatment successfully who do not re-present to treatment within 6 months 2.17- % of QOF-recorded cases of diabetes registered with GP practices aged 17+ 2.20i- % of eligible women screened adequately within the previous 3 years on 31st March 2.20ii- % of eligible women screened adequately within the previous 3.5 or 5.5 years (according to age) on 31st March 2.21vii- % of those offered diabetic eye screening who attend a digital screening event 2.22i-% of eligible population aged 40-74 offered an NHS Health Check 2.22i-% of eligible population aged 40-74 offered an NHS Health Check who received an NHS Health Check 2.23i- % of respondents scoring 0-6 to the question "Overall, how satisfied are you with your life nowadays?" 2.23ii- % of respondents scoring 0-6 to the question "Overall, to what extent do you feel the things you do in your life are worthwhile?" 2.23ii- % of respondents scoring 0-6 to the question "Overall, how happy did you feel yesterday?" 2.23iv- % of respondents scoring 4-10 to the question "Overall, how anxious did you feel yesterday?" 2.24i- Age-sex standardised rate of emergency hospital admissions for injuries due to falls in persons aged 65+ per 100,000 population 2.24i- Age standardised rate of emergency hospital admissions for injuries due to falls in males/females aged 65+ per 100,000 population 2,24ii- Age-sex standardised rate of emergency hospital admissions for injuries due to falls in persons aged 65-79 per 100,000 population 2.24iii- Age-sex standardised rate of emergency hospital admissions for injuries due to falls in persons aged 80+ per 100,000 population

Health protection

3.01- Fraction of all-cause adult mortality attributable to long-term exposure to current levels of anthropogenic particulate air pollution 3.02i- Crude rate of chlamydia diagnoses per 100,000 young adults aged 15-24 using OTAD data 3.03i-% of eligible children who received 4 doses of Hepatitis B vaccine at any time by their 1st birthday 3.03i-% of eligible children who received 4 doses of Hepatitis B vaccine at any time by their 2nd birthday 3.03ii-% of eligible children who received 4 doses of Hepatitis B vaccine at any time by their 2nd birthday 3.03ii-% of eligible children who received 3 doses of Dtap / IPV / Hib vaccine at any time by their 1st birthday 3.03ii-% of eligible children who received 3 doses of Dtap / IPV / Hib vaccine at any time by their 2nd birthday 3.03iv-% of eligible children who have received the complete course of PCV vaccine by their 1st birthday 3.03v-% of eligible children who have received one booster dose of Hib/Men C vaccine by their 2nd birthday 3.03vi-% of eligible children who have received one booster dose of Hib/Men C vaccine by their 2nd birthday 3.03vi-% of eligible children who have received one booster dose of Hib/Men C vaccine by their 2nd birthday 3.03vi-% of eligible children who have received one dose of MMR vaccine on or after their 1st birthday and anytime up to their 2nd birthday 3.03ix-% of eligible children who have received one dose of MMR vaccine on or after their 1st birthday and at any time up to their 5th birthday 3.03x-% of eligible children who have received two doses of MMR vaccine on or after their 1st birthday and at any time up to their 5th birthday 3.03x-% of eligible children who have received two doses of MMR vaccine on or after their 1st birthday and at any time up to their 5th birthday 3.03x-% of eligible children who have received two doses of MMR vaccine on or after their 1st birthday and at any time up to their 5th birthday 3.03x-% of eligible children who have received the flu vaccine 3.03xi-% of eligible adults aged 65+ who have received the

Healthcare and premature mortality

4.01- Rate of deaths in infants aged under 1 year per 1,000 live births 4.02- Mean severity of tooth decay in children aged five years based on the mean number of teeth per child sampled which were either actively decayed or had been filled or extracted - decayed/missing/filled teeth (d3mft) 4.03- Age-standardised rate of mortality from causes considered preventable per 100,000 population (provisional) 4.04i- Age-standardised rate of mortality from all cardiovascular diseases (including heart disease and stroke) in persons less than 75 years of age per 100,000 population (revised provisional) 4.04ii- Age-standardised rate of mortality considered preventable from all cardiovascular diseases (incl. heart disease and stroke) in those aged <75 per 100,000 population (provisional) 4.05i- Age-standardised rate of mortality from all cancers in persons less than 75 years of age per 100,000 population (revised provisional) 4.05ii- Age-standardised rate of mortality considered preventable from all cancers in those aged <75 per 100,000 population (provisional) 4.06i- Age-standardised rate of mortality from liver disease in persons less than 75 years of age per 100,000 population (provisional) 4.06ii- Age-standardised rate of mortality considered preventable from liver disease in those aged <75 per 100,000 population (provisional) 4.07i- Age-standardised rate of mortality from respiratory disease in persons less than 75 years per 100,000 population (provisional) 4.07ii- Age-standardised rate of mortality considered preventable from respiratory disease in those aged <75 per 100,000 population (provisional) 4.08- Age-standardised rate of mortality from communicable diseases per 100,000 population (provisional) 4.10- Age-standardised mortality rate from suicide and injury of undetermined intent per 100,000 population (provisional) 4.11- Indirectly standardised % of emergency admissions to any hospital within 30 days of the previous discharge from hospital 4.12i- Crude rate of sight loss due to age related macular degeneration (AMD) in those aged 65+ per 100,000 population 4.12ii- Crude rate of sight loss due to glaucoma in those aged 40+ per 100,000 population 4.12ii- Crude rate of sight loss due to diabetic eye disease in those aged 12+ per 100,000 population 4.12iv- Crude rate of sight loss certifications per 100,000 population 4.14i- Age-sex standardised rate of emergency admissions for fractured neck of femur in those aged 65+ per 100,000 population 4.14ii- Age-sex standardised rate of emergency admissions for fractured neck of femur in those aged 65-79 per 100,000 population 4.14iii- Age-sex standardised rate of emergency admissions for fractured neck of femur in those aged 80+ per 100,000 population 4.15i- Excess Winter Deaths Index (Single year, all ages) 4.15ii- Excess Winter Deaths Index (single year, age 85+)
