

DERBY CITY COUNCIL

AREA PANEL TWO 22 SEPTEMBER 2004

Report of Assistant Director – Highways, Transportation, and Waste Management

HIGH STREET, CHELLASTON

SUPPORTING INFORMATION

- 1.1 A petition of 50 names has been submitted by a Ms. Denton calling for the Council to fully repair and resurface the roadway of High Street, Chellaston and to complete the refurbishment of the footways.
- 1.2 The reconstruction of High Street carriageway is included in this year's major maintenance programme and a start on site was expected in August 2004. However, Transco have now announced proposals to carry out major works in High Street. These proposals were not included in Transco's 04/05 programme. Discussions are taking place with Transco, but it seems likely that the proposed reconstruction work will be deferred until next financial year.
- 1.3 Some footway resurfacing has already taken place. However, there are no proposals to carry out further resurfacing. There is considerable pressure on the available budget for footway reconstruction/resurfacing, and the works are prioritised on a city wide basis. The remaining sections of High Street footways do not have sufficient priority to be included in this year's footway reconstruction/resurfacing programme.

PROPOSED ACTION

- 2.1 To note the petition.
- 2.2 To note that carriageway works are in this year's major maintenance programme but may be deferred until next financial year due to Transco's proposed works.
- 2.3 To note that no further reconstruction/resurfacing works are proposed on the High Street footways.
