

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
1	<p>For Domestic premises covered by Rethink Rubbish.</p> <p>Alternating week black and brown (compost) bin collections for the months March through to November. Weekly black bin collections for the months of December, January and February. Fortnightly dry recyclables throughout the year.</p>	<p>Alternating week black and brown bin collections throughout the year.</p> <p>Blue boxes to be replaced with Blue bins on first 4 Rethink Rubbish rounds.</p>	<p>Food waste and corrugated (brown) cardboard can now be incorporated in the Brown compost Bin.</p> <p>Service improvement.</p>	Cost Neutral
2	<p>For Domestic premises not covered by Rethink Rubbish.</p> <p>Provision of a weekly household waste collection service utilising black wheeled bins.</p> <p>Remaining areas to be converted to Rethink Rubbish by March 2009</p>	<p>Will require innovative methods of collection for properties with difficult access and in multiple occupation.</p>	No change	No change
3	<p>Provision of bulk wheeled bins or bags to properties that are not conducive to having their waste and recyclables collected by standard wheeled bins.</p>	No change	No change	No Change

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
4.	Non-collection of side-waste except for the collection after Christmas.	No change	No change	No Change
5.	Waste, (except for paper and textiles) to be contained in the containers specified at the agreed presentation point (for domestic properties this is normally at the boundary), with wheeled bin lids closed.	No change	No change	No Change
6.	That excessively heavy bins should not be collected.	No change	No change	No Change
7.	Bins to be presented by 7.00 am.	Require waste to be presented for collection by 6.30 am on the stated day	Most bins are placed out the previous night. Moving the beginning of operations forward by 30 minutes will avoid traffic and maximise the working day.	Greater efficiency will help contain cost increases as the City expands.
8.		Wheeled bins and/or boxes to be removed from the street by noon on the day following collection.	Removal of highway obstruction	Enforcement costs
9.		Require occupiers to comply with our collection arrangements.	Prevention of indiscriminate dumping of waste in non standard containers on non collection days.	Enforcement costs

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
10.	Provision of alternative collection arrangements between Christmas and New Year.	No Change	No change	No change
11.	Collection of missed bins: <ul style="list-style-type: none"> complaints received before noon put right the same day 	Collections missed due to no fault of the customer to be collected by original crew within 24 hours.	Places responsibility on crews to minimise errors.	Possible savings as collection of missed bins on same day requires additional resources.
12.	<ul style="list-style-type: none"> complaints received after noon put right the next day 	Collections missed due to customer's failure to comply with normal arrangements such as non presentation, overweight bins, contamination, non standard container, side refuse and so on. Missed collection to be rectified by relief crew within 24 hours provided no similar incident recorded at that address within preceding 12 months.	Places responsibility on customers to ensure compliance with normal arrangements.	Possible savings with removal of current policy of collecting missed bins regardless of frequency and cause.
13.	Provision of an "exemption from curtilage collection" (or "pullout") service for disabled and elderly residents where there are no able bodied people living in the household.	No change	No change	No change
14.	Provision of a free refuse sack for properties covered by a sack collection.	No change	No change	No change

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
15.	Provision of a chargeable bulky waste collection service requiring a pre-arranged appointment system.	No change	No change	No change
16.	In areas covered by the Reth!nk Rubbish Initiative, provision and delivery of free new and replacement wheeled bins within five working days of an approved request.	Extend provision of new and replacement bins to all areas including those not covered by Rethink Rubbish	Remove inequality of provision	Marginal increased costs contained within existing budgets
17.	Provision of large wheeled bin, of up to 360 litres capacity, to large families.	Evidence of need and participation in recycling required.	Families encouraged to reduce and recycle waste	None
18.	Charge for the provision and delivery of new and replacement bins over 360 litres capacity in multiple occupation domestic premises.	No change	No change	No change
19.	Provision of a Household Waste and Recycling Centre for residents of Derby to take their household waste, which is open every day except Christmas Day, Boxing Day and New Years Day.	No change	No change	No change
20.		Require users to follow the Household Waste and Recycling Centre site rules and that non compliance with these rules may result in them being denied future access.	To ensure health and safety rules are observed and to minimise non-compliant waste.	None

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
21.	Require the users of vehicles other than cars, to have organised a “permit” in advance, in order to deliver their household waste to the Household Waste and Recycling Centre.	No change	No change	No change
22.	Provision of a free disposal service for residents who take up to 3 small sheets of asbestos waste to the Household Waste and Recycling Centre.	No change	No change	No change
23.	Provision of a chargeable waste collection service for small quantities of asbestos	No change	No change	No change
24.	Provision of free collection of household clinical waste by arrangement with the District Nurse. Also a “night soil” collection service to existing customers.	No change	No change	No change
25.		Require all developers of land and existing property to consult with Waste Management about future waste storage on these sites. To charge all developers for the initial purchase and delivery of any necessary waste and recyclables wheeled bins.	To ensure that waste storage is designed to meet the householder and collection needs	Savings in bin provision

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
26.		Research and adopt waste management practices that are sustainable.	To meet the overall objectives of Derby's Environmental Policy and its 'Climate Change' Declaration	Contained within existing resources
27.		Minimise the City's need to purchase allowances under the Landfill Allowance Trading Scheme (LATS).	Compliance with Government directives	Not known
28.	Operate recycling "bring sites" that complement the Reth!nk Rubbish kerb-side collection systems that are in place.	No change	No change	No change
29.	Not to pay third party recycling credits for materials.	No change	No change	No change
30.		Provision of a waste management education campaign to promote waste minimisation, recycling and composting and litter awareness in the City.	To complement the enforcement powers given by the Clean Neighbourhoods and Environment Act 2005	No additional staffing resources available. Initiative must be contained within existing resources
31.		Promote the use of "Real Nappies".	To promote 'sustainable choices' for families in Derby	Contained within existing resources
32.		Promote Home Composting	To promote 'sustainable choices'	Contained within existing resources

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
33.	Achieve Government targets for recycling and composting.		Compliance with Government directives	Avoidance of unbudgeted penalties for non compliance
34.	The street Cleansing Service is based in the 1991 Code of Practice for Litter and Refuse. The Service does not comply with either the 1999 Code or the recent 2005 Code issued under the Environmental Protection Act 1990.	To consider the provision of a Public space cleansing service that meets the provision of Section 89 of the Environmental Protection Act 1990 and the current 2005 Code of Practice on Litter & Refuse.	The 2005 Code of practice although advisory, is due be implemented by April 2007.	If implemented, compliance with the 2005 Code would increase the cost of the service by approximately £200k per year.
35.	No standard litter bin types and variable provision throughout the City	Undertake a comprehensive needs survey on the provision and maintenance of litter bins citywide related to demand. Implement standardisation of style and type.	To provide a consistent service throughout the City to comply with 2005 Code of Practice.	Provision of new bins dependant upon additional one off capital funding to be identified
36.	Provision of a graffiti and fly-posting removal service and removal of offensive graffiti or fly-posting within 24 hours of notification.	No change	No change	No change
37.		A charge may apply for graffiti and fly-posting removal on privately owned sites.	Some graffiti removal requires expensive chemicals	Service contained within current budgets.
38.	Provision of a weed control service for highway channels and footpath backlines	No change	No change	No change

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
39.	Provide a seasonal leaf-fall clearance service.	No change	No change	No change
40.	Provision of a road gulley emptying service including an emergency response to flooding incidents on the public highway.	No change	No change	No change
41.	Provision of a means to respond to cleansing emergencies which occur in the public highway and on 'relevant land'.	No change	No change	No change
42.		Carry out education, awareness and campaigning activity in conjunction with appropriate "Enviro-crime" enforcement measures as set out in the Waste Management Enforcement Policy document.	To complement the enforcement powers given by the Clean Neighbourhoods and Environment Act 2005	No additional staffing resources available. Initiative must be contained within existing resources
43.	Divert cleansing resources to deal with Winter Maintenance emergencies.	No change	No change	No change
44.	Provision of a commercial waste collection service on request to private organisations.	Consider night time operations in conjunction with street cleaning	Service improvement.	Self financing
45.		Provision of a commercial waste recycling service to private organisations	To minimise the impact of LATs and to maximise any business opportunities.	Self financing

Appendix 2

Item	Existing Policy	New Policy	Reasons for the new or amended Policy	Cost implications
46.		Consider the provision of a Schools recycling service in conjunction with an ongoing education and awareness campaign in schools	Educate young people to act environmentally responsible.	No additional staffing resources available. Initiative must be contained within existing resources as following completion of Rethink Rubbish roll out.
