### **Children in Care Council Summary**

The annual report provides information about how Change, Grow and Live (CGL merged with SOVA in March 2019) have provided independent advocacy and independent visitor services.

Over the year CGL advocacy have provided help and support to 82 issue based referrals, a rise of 10% on the previous year, when there were 71. 37 (30%) were from children and young people placed outside of area.

Advocates have a monthly clinic in each of the residential homes so young people can speak to the advocates. Over 2019/20 there were 51 visits undertaken to residential homes.

CGL also provide advocacy to help young people get their views across at the initial child protection conferences. These are children that still live at home. This has worked well over the year and continued to grow. In 2019-20 CGL supported 63 children/young people to participate in 34 separate conferences.

It has been agreed with CGL that they should at least provide 40 independent visitor matches to young people in care. At the end of the year there were 38 matches. Young people who live a way from Derby and who do not have any regular contact with family or friends are given priority for independent visitor matches.
