Attendance Report

An analysis of all pupils placed this year showed in all cases attendance had improved when compared to their attendance at previous schools. Last years figures also showed an overall improvement, with one pupil's attendance staying the same.

- 1 student withdrew as not confident enough to go into mainstream – student choice
- 1 mentioned prior to referral as may be fast tracked under new protocol.
- What is not reflected within this report are the large number of pupils who have entered the PRU as a result of Permanent Exclusions or acceptance of the Alternative Provision Offered. Due to the added pressure and the incapacity to assess some of these pupils for return to mainstream education, the PRU have been unable to present to the panel as many pupils as they would have wanted to.
- In comparison the last year there are very little changes in numbers being referred and those of the successful pupils.
