

Internal Audit Plan 2023/24 - Quarter 2

Purpose

- 1.1 To outline to the Committee the proposals for internal audit work in Quarter 2 of 2023/24. This is in accordance with the Public Sector Internal Audit Standards (PSIAS) which requires that Internal Audit develops a risk-based plan to direct their work in the forthcoming financial year.
- 1.2 The appendix to the report also outlines those areas that the Head of Internal Audit has earmarked for potential audit in Quarters 3 and 4 of 2023/24 and also Quarter 1 of 2024/25. These are subject to change in light of new and emerging risks and issues.

Recommendations

- 2.1 To consider and approve the Internal Audit Plan for Quarter 2 of 2023/24 at Appendix 1.

Reasons

- 3.1 The Audit and Governance Committee is responsible for providing assurance to the Council on the effectiveness of its governance arrangements, its risk management framework and the internal control environment. The work of Internal Audit supports the Committee in providing this assurance.

Background to Internal Audit Planning

- 4.1 The Audit Plan must incorporate sufficient work to enable the Chief Audit Executive (Head of Internal Audit) to give an opinion for the 2023/24 financial year on the adequacy of the Council's overall governance, risk and control environment. Internal Audit must therefore have sufficient resources to deliver the Audit Plan.
- 4.2 Management needs to ensure that the appropriate control measures are in place to manage risk and are applied consistently across all services and that there are good governance arrangements to ensure that the Council is operating within both the legal framework and its own protocols and standards.

- 4.3 In accordance with the Public Sector Internal Audit Standards (PSIAS), Internal Audit must develop a risk-based plan to determine the priorities of the internal audit activity, consistent with the organisation's goals, for the coming financial year. The chief audit executive (the Head of Internal Audit) must review and adjust the plan, as necessary, in response to changes in the organisation's business, risks, operations, programmes, systems, and controls.
- 4.4 The Chartered Institute of Public Finance & Accountancy's (CIPFA) Local Government Application Note for the United Kingdom Public Sector Internal Audit Standards 2019 Edition (issued February 2019) states: "In the context of the PSIAS, 'opinion' means that internal audit will have done sufficient, evidenced work to form a supportable conclusion about the activity that it has examined."
- 4.5 Internal Audit helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. The internal audit activity must be free from interference in determining the scope of internal auditing, performing work and communicating results.

Internal Audit Plan 2023/24

- 4.6 The Public Sector Internal Audit Standards require that internal audit independently forms a view on the risks facing the Council and work to be included in the audit plan. Internal audit plans also need to be flexible to respond to changes to those risk that the Council faces, as well as any other changes with the Council e.g. organisational.
- 4.7 The audit plan needs to align strategically with the aims and goals of the Council and the risks to their achievement. It also needs to become more insightful, active, and focused on the future. Internal Audit work will continue to be based on quarterly planning as this has achieved greater flexibility in how work is both planned and delivered. The Head of Internal Audit is able to revisit the plan to determine what audit reviews are required as we progress through each quarter.
- 4.8 In producing the plan for Quarter 2 and potential areas for the other quarterly internal audit plans in 2023/24, the Head of Internal Audit has:
- Reviewed internal audit's work in 2022/23 and work done to date in quarter 1 of 2023/24.
 - Revisited the Council's Risk Registers.
 - Reviewed those areas highlighted in the previous Internal Audit Plan report as potential areas for audit work for quarters 2 to 4 of 2023/24.
 - Identified areas that have not been subjected to audit review for several years.
 - Reviewed horizon scanning documents that highlighted some of the challenges and opportunities faced by the public sector.
- 4.9 Appendix 1 includes the proposed areas of coverage in quarter 2 and also identifies potential areas for audit coverage for the next three quarters (Quarters 3 and 4 in 2023/24 and quarter 1 of 2024/25) of the rolling 12 month plan. Given the current economic climate the 2023/24 quarterly plans will be influenced by, amongst other things, changes to risk faced by the Council and process/procedural/structural changes within the Council which impact on governance and control.

- 4.10 Ongoing Internal Audit reviews started in previous quarters are not included, but will be detailed in the Internal Audit progress reports.
- 4.11 As part of its MTFP savings for 2023/24, the Council has reduced the level of internal audit service it purchases from CMAP by £83,000. As a result of this, Derby will receive 16% less audit coverage in 2023/24. This percentage decrease is factored into all quarterly plans going forward.

Public/stakeholder engagement

- 5.1 Key stakeholders are consulted on a regular basis as each quarterly plan is formulated.

Other options

- 6.1 None

Financial and value for money issues

- 7.1 The Council's contribution to CMAP for 2023/24 will be £467,534 (2022/23 was £529,551). The estimated number of days required to deliver the plan across the financial year is 1,218 compared to 1,445 in 2022/23.

Legal implications

- 8.1 None

Climate implications

- 9.1 None

Socio-Economic implications

- 10.1 None arising directly from this report

Other significant implications

- 11.1 None
