## Mid-year review of targets

All measures within the Council Scorecard have been reviewed to make sure there are meaningful targets in place that are fit for purpose. The criterion used for any proposed changes is set out below:

1. Target is not sufficiently stretching based on latest performance results.
2. The target is too stretching based on changing performance due to external factors (i.e. increasing demand, loss of capacity / resources etc.).
3. There were no targets set in July 2016 as there was insufficient information available at the time to propose a SMART target.
