

CHILDREN AND YOUNG PEOPLE CABINET MEMBER MEETING 21 NOVEMBER 2006

MINUTE EXTRACT

18/06 Building Schools for the Future

It was noted that there would be announcements in December about the Building Schools for the Future programme. Councillor Bolton felt that as the scheme progressed there would be an opportunity to look into funding streams to enable joint working.

Councillor MacDonald said the Children and young People's Commission felt that the Building Schools for the future programme would be a good opportunity to involve the community in schools and increase the levels of provision for youth services. Councillor Bolton said both she and the Council Cabinet supported this premise.

Resolved to note the report.
