ITEM 6b

Report of the Strategic Director of Adult Health
& Housing

Adults, Health & Housing Commission Report

SUMMARY

1. The report from the Adults Health & Housing Commission puts forward four recommendations relating to Transforming Social Care, Extra Care, Safeguarding Adults and the Dementia Strategy. The majority of which are welcomed. However in relation to Transforming Social Care it needs to accept that the whole ethos of the personalisation agenda is tailoring care and support for each individual's unique set of needs & circumstances. Therefore there may be instances where recipients do on occasions receive a lower, or higher, level of service as a result of their changed circumstances.

RECOMMENDATION

2. To accept the recommendations of the Commission of Adults Health & Housing but with the reservations expressed in paragraph 1 above on their recommendation (2.1) for transforming Social Care.
