

INTEGRATED CARE PARTNERSHIP 19 June 2024

ITEM 10

Report sponsor: Robyn Dewis, Director of Public Health, Derby City Council
Report author: Kate Brown, Director of Place & Partnerships, Derby and Derbyshire Integrated Care Board
Hayley Gleeson, Public Health Lead – Strategic Intent, Derbyshire County Council
Alison Wynn, Assistant Director of Public Health, Derby City Council

Update from key groups and key areas of focus

Purpose

- 1.1 To provide the Integrated Care Partnership (ICP) an overview of key issues and action from recent meetings of the Integrated Place Executive (IPE), Derby and Derbyshire Health and Wellbeing Boards and of the Integrated Care System's key areas of focus (KAOF) Start Well and Age Well and Die Well.

Recommendation

- 2.1 To note the contents of this report for the information of the ICP.

Reasons

- 3.1 To ensure that the ICP has an understanding of the issues being discussed and the activity taking place across the system that relate to the business of the ICP.

Supporting information

Derbyshire Health and Wellbeing Board

4.1 Derbyshire Health and Wellbeing Board last met on Thursday 28th March 2024. Agenda items discussed included:

- Joint Local Health and Wellbeing Strategy
- Review of the Terms of Reference and Membership of the Health and Wellbeing Board

4.4 The next meeting of Derby Health and Wellbeing Board is scheduled is scheduled to take place on the 25th July 2024 at 1pm. The agenda and reports for this meeting will be accessible here

<https://democracy.derby.gov.uk/Meetingscalendar/tabid/73/ctl/ViewMeetingPublic/mid/410/Meeting/10355/Committee/1931/Default.aspx> from 16th July 2024.

Integrated Place Executive

4.5 The Integrated Place Executive (IPE) has met twice on the 25th April 2024 and on the 23rd May 2024 since the last meeting of the ICP. The headline key messages from these meetings are set out below:

IPE - 25/04/2024

- There is a significant opportunity – and strategic need – to align the implementation of the emerging Primary Care Model with the community transformation programme and other ongoing work in PCNs and Place.
- 2A Care Transfer Hub is proposed to reduce the 61,000 days lost to delayed discharge in the last year and to simplify the discharge pathways and processes for the benefit of patients and staff.
- Data is showing that emergency attendance are flatlining among people 65+ with severe frailty, where all other activity is increasing, pointing to the positive impact of Team Up.
- We are developing a Women's Health Hub model to meet NHSE requirements, using £600k of non-recurrent national funding. Pilots are emerging in Erewash and Derby City, and we are confident of having our first hub in Place by December 2024.
- Concern was raised about the Derbyshire County Council consultation on closure of residential care homes and the potential impact on local care infrastructure, acknowledging that the councils are required to achieve a balanced budget each year. Local Place Alliance (LPA) leads had not been aware of the consultation and asked that they might be brought into this process noting the value of Place in understanding the potential impact of proposed changes across a range of services.

The IPE 25th April 2024 Meeting Update is attached in Appendix 1 for information.

IPE - 23/05/2024

- A review of Voluntary Sector involvement in the Joined Up Care Derbyshire ICS has been undertaken, to understand more about the influence the sector is able to have. The review comes one year after the sector signed a Memorandum of Understanding with the ICS. The review points to good progress, including the awareness the system has on the work of the sector, increasing representation and engagement. Focus is needed to ensure that the system builds a sustainable local VCSE sector and makes best use of what it offers.
- The meeting had an open discussion about the Living Well programme reflecting issues raised through Local Place Alliances with a recognition that there are opportunities for shared learning and strengthened links.
- Our prioritisation of efforts on discharge continue with a range of actions reported providing assurance on the progress of this programme of work.
- An evaluation has taken place to make an assessment of the system's performance against NHS England's social prescribing maturity framework. Focus is needed to ensure we realise the full potential of this provision through 'calls to action' detailed below

- A report on Team Up data for 23/24 showed improvements (with lower growth in emergency department attendances for the cohort served when compared with all over 65 year olds).

The IPE 23rd May 2024 Meeting Update is attached in Appendix 2 for information.

4.6 Recent local Place visits have raised a request for greater clarity from local organisations about the alignment of priorities.

4.7 The next meeting of the IPE is scheduled to take place on 27th June at 1:30pm.

Start Well Key Area of Focus (KAOF) Update

4.8 A substantive update on Start Well KAOF was provided to the ICP at its last meeting held on the 17th April 2024. There is no further significant action or update to provide since this meeting. The Children and Young People's Delivery Board, however, will be holding a dedicated session in June focused on Start Well. An update on this session will be provided to ICP following the session.

Age Well/ Die Well Key Area of Focus (KAOF) Update

4.9 Data is showing that emergency attendances are flatlining among people 65+ with severe frailty, where all other activity is increasing, pointing to the positive impact of Team Up. Benchmarking with other systems to corroborate this shows we are having different results, with demand rates climbing much less quickly than the national average. Frailty admissions are still tracking national averages, so further investigation is required.

4.10 Detailed work has been undertaken between the ICB and both local authorities to ensure that utilisation of the Adult Social Care Discharge Fund (which is part of the Better Care Fund) increases capacity and resilience of discharge provision but also supports the agreed strategic ambitions. This includes coordinating discharge through a proposed care Transfer Hub will help tackle the 61,000 bed days lost to delayed discharged in our system in the last year. Starting with a 'why not home' ethos and operating across health and care for all patients resident in the Joined Up care Derbyshire system, the hub will seek to coordinate discharge across simplified pathways, building on work seen in the Staffordshire system. This won't be an additional step in the discharge process, but will seek to shift resource and help staff and patients navigate the discharge process with a 'home first' and strengths-based approach.

4.11 Enhanced Falls Recovery Services are now in place across the county and the focus is now on ensuring they are being utilised to prevent ambulance dispatch.

Public/stakeholder engagement

5.1 Derby and Derbyshire Health and Wellbeing Boards are statutory committees of Derby City Council and Derbyshire County Council respectively with agenda and reports published in advance of the meeting and are held in public.

Other options

6.1 None considered.
