and that

- **The decision to renew would be dependent upon the satisfactory achievement of specific objectives, which will be set and monitored through the Chief Executive's Formal Performance Appraisal Process.**

The Chief Executive returned to the Council Chamber at this point

19/13 Notices of Motion

1) Energy Switching Scheme

It was proposed by Councillor Carr and seconded that

'This Council notes:

- i. the recent increases in household energy bills, averaging over 7% per annum, with concern, given the impact that this will have on many hard pressed households in Derby.
- ii. that the primary reason for the rise is the increases in fossil fuel prices on gas and electricity tariffs.

This Council welcomes:

- i. the action that the government is taking to reduce reliance on fossil fuels in our energy mix long term, but believes that action should be taken, where possible, to increase competition in the retail energy market, in order to help drive down bills and get the best deal for the consumer.
- ii. the initiative of the Department of Energy and Climate Change, to promote guidance on collective switching and its launch of a competition, to encourage local authorities and community groups to support collective switching schemes.

This Council further notes that pilot schemes promoted by local authorities in Cornwall, South Lakeland and Oldham have already led to households reducing their energy bills by up to £200 per annum.

This Council instructs officers to bring forward proposals for Derby to introduce a collective switching scheme (working with other local authorities and public sector bodies if appropriate) to enable energy consumers in Derby to make similarly large savings as those achieved in other areas.

It was moved by Councillor Bayliss and seconded that the motion be amended, by deletion of paragraph 2 and changes to paragraph 4, for the motion to read

'This Council notes:

- iii. the recent increases in household energy bills, averaging over 7% per annum, with concern, given the impact that this will have on many hard pressed households in Derby.
- iv. that the primary reason for the rise is the increases in fossil fuel prices on gas and electricity tariffs.

This Council further notes that pilot schemes promoted by local authorities in Cornwall, South Lakeland and Oldham have already led to households reducing their energy bills by up to £200 per annum.

This Council therefore applauds the decision by the Labour – led administration to bring forward proposals for Derby to introduce a collective switching scheme (working with other local authorities and public sector bodies) to enable energy consumers in Derby to make similarly large savings, at a time of unprecedented Government cuts.'

The amendment was approved.

Resolved that

'This Council notes:

- ii. that the primary reason for the rise is the increases in fossil fuel prices on gas and electricity tariffs.**

2) 'Proud of Derby'

Resolved on the motion of Councillor Bayliss and seconded that

'This Council affirms that it is proud of Derby and empowers Council Cabinet to action a 'Proud of Derby' campaign.

We want to affirm the vibrancy of the City of Derby, from Allestree to Arboretum, Chaddesden to Chellaston, Sinfin to Spondon, and that it has a proud sense of community, and is the pre-eminent UK city for high technology engineering in trains, planes and automobiles.'

3) Child Poverty

Resolved on the motion of Councillor Martin and seconded that

‘Council notes with concern that at least one in four children in the UK - and 24% in Derby - live in poverty, a figure which is projected to continue to rise as a result of the government’s reforms to the nation’s social security system and the increase in precarious employment.

Council recognises that growing up in poverty can have damaging consequences for individuals throughout their lifetime. The work of Derby’s Child Poverty Commission is to be applauded for its attempt to mitigate the effects of reductions in support to family incomes from central government.

Council calls upon the government to address the issue of child poverty, by tackling low pay and by reversing its welfare reforms, which reduce family incomes and to thus prevent an inevitable return to increasing levels of child poverty.’
