

Derby and Derbyshire Integrated Care Strategy

The Derbyshire
VCSE sector
Alliance

Derby City Council

DERBYSHIRE
County Council

Development of the Strategy

- **Multi-organisational working group** - colleagues from local authorities, NHS, and Voluntary, Community, and Social Enterprise (VCSE) sector have steered outputs
- **Communications and engagement group** - includes Healthwatch and VCSE Sector, developing insights and engagement approach

Future updates to the Strategy

Following new joint
strategic needs
assessment

Context

Challenging environment
Recognise we cannot expect the current challenges to diminish in the near future and we cannot develop this Strategy in a bubble

But by integrating resources and by working differently we can improve prevention, early intervention and outcomes for citizens, and provide services more effectively and efficiently

Health and care drivers

Our Desired Population Outcomes

- **Start Well**

People have a healthy pregnancy, children are born safe and well into a nurturing and secure relationship with care givers, with good nutrition, access to health care, social care, and education. Children thrive and develop positive and healthy relationships.

- **Stay Well**

All citizens live a healthy life, can make healthy choices, and are protected from harm. They maintain quality of life and recover well from ill health or injury.

- **Age Well and Die Well**

Citizens thrive and stay fit, safe, and secure into older age. They maintain independence and actively participate in society. They have a personalised, comfortable, and supported end of life.

Turning the Curve system wide population indicators

- Important 'markers' on the way to improving high-level outcomes. They address direct risk factors for the main causes of death, illness, and inequalities, including mental health

- **Reduce smoking prevalence**
- **Increase the proportion of children and adults who are a healthy weight**
- **Reduce harmful alcohol consumption**
- **Improve participation in physical activity**
- **Reduce the number of children living in low-income households**
- **Improve mental health and emotional wellbeing**
- **Improve access to suitable, affordable, and safe housing**
- **Improve air quality**

Strategic aims

- Prioritise prevention and early intervention to avoid ill health and improve outcomes
- Reduce inequalities in outcomes, experience, and access
- Develop care that is strengths based and personalised
- Improve connectivity and alignment across Derby and Derbyshire, to ensure people experience joined up care, and to create a sustainable health and care system

Key Areas of Focus - 'the what'

- **Proposed by** - CYP Board, PHM Steering Group and Integrated Place Executive, and informed by Insights, health and care drivers, unwarranted variation
- **Agreed by** - Integrated Care Partnership workshop – 20 January 2023
- **Not framed as priorities** - Chosen by colleagues as areas to test our strategic aims and ambitions for integrated care, in response to population health and care drivers

Start Well

- To improve outcomes and reduce inequalities in health, social, emotional, and physical development of children in the early years (0-5) via school readiness

Stay Well

- To improve prevention and early intervention of the 3 main clinical causes of ill health and early death in the JUCD population - Circulatory disease, respiratory disease and cancer

Age and Die Well

- To enable older people to live healthy, independent lives at their normal place of residence for as long as possible. Integrated and strength based services will prioritise health and wellbeing, help people in a crisis to remain at home where possible, and maximise a return to independence following escalations

Enablers – ‘the how’

- **Architecture and governance**
- **Shared purpose, values, principles, and behaviours**
- **Enabling functions and services** including:
 - Workforce
 - Digital and data
 - VCSE sector
 - Strengths based approaches
 - Population health management
 - Commissioning
 - Quality drivers
 - Estate
 - Derby/ Derbyshire Anchor Partnership

Engagement

Methodology for embedding engagement approach

- Being developed with Communication and Engagement Group

Initial Engagement

- **Derbyshire Dialogue session** - held 15 February 2023
- **JUCD on-line engagement platform**
- **Briefing and discussion events** for each Key Area of Focus (May)
 - Introduction - why this area and what we hope to achieve
 - Identify the gaps we have in our insights that we need to fill
 - Gather what matters to people - hear people's views and suggestions for co-production

Next steps

- **In-depth and bespoke methods of engagement developed** informed by initial engagement e.g.
 - Conversations with community groups, to ensure we do not just rely on digital access with support from Healthwatch and the VCSE sector.

Mobilisation and Delivery

- **Significant work already happens** across the System within the scope of the Enablers and Key Areas of Focus, this will be built on
- **A set of minimum requirements** is being produced to guide the next phase of work
- **Clarity on how delivery actions are to be co-ordinated** across the JUCD architecture
- **Programme resource** being considered
- **Integrated Place Executive will manage delivery** of the Strategy on behalf of the ICP Board
- **Evaluation** – Framework to be developed through a Task and Finish Group with members from across JUCD

In summary – The impact of the Strategy is.....

- **Collaboration and collective working** - The way in which we are developing the Strategy is just as important as the content. We are seeing stronger working relationships between partners, in ways that will prove beneficial beyond the remit of this Strategy
- **A joined up approach to Strategic Enablers** - The Strategy captures for the first time the key, enabling actions that are critical to the development of high quality and sustainable integrated care, and identifies practical areas of focus to test these actions
- **Key Areas of Focus are agreed** – System-wide conversations have led to agreement on three areas that will test our strategic aims and deliver key population health and service outcomes
- **Engagement** – To ensure improvements arising from this Strategy are meaningful and impactful for citizens. The Integrated Care Strategy provides an ideal opportunity to test and further develop our emerging JUCD approach to engagement

Questions and Discussion
