Summary – £330k of money was secured as part of a section 106 agreement for part of the Heatherton development to be spent on improving leisure facilities within a mile radius of that phase of the estate. Originally intended to be used to help implement a City park on adjacent land, alternative schemes are now being considered in light of the City park proposal no longer being a realistic option. Various proposals have been put forward for using this money and choices will need to be made as there is insufficient money to implement them all. Given the amount of money involved and the range of alternative options being put forward, it is appropriate for Council Cabinet to decide how to spend the money. The Leader has considered the options and is presenting his selection for Council Cabinet's approval.

Summary – The Council has long established right to provide and regulate markets in the city, initially dating back to 1154 under a Royal Charter and more recently under the Food Act 1984. In order to provide a framework under which those rights can be effectively applied, a Markets Rights policy needs to be adopted.
