ITEM 7

Report of the Strategic Director of Peoples
Services

Future in Mind Refresh

SUMMARY

1.1 Future in Mind (FIM) is a 5 year plan to improve the emotional health and well-being of Children and Young people. It is a joint plan developed by Derby City and Derbyshire County Councils and the four Derbyshire CCG's. The plan was approved in October 2015. Each year the plan is refreshed and this report is a summary.

1.2 The shared vision for FIM is that, by 2020:

'Children and young people are able to achieve positive emotional health by having access to high quality, local provision, appropriate to their need, as well as a range of support enabling self-help, recovery and wellbeing.'

1.3 To achieve the vision the plan takes a whole system approach by:

- investing in additional staff and training in mental health services, schools and the voluntary sector
- extending the use of evidence based approaches
- investing in "rapid response" services
- increasing therapeutic support for children in care.

The plan has been refreshed in October 2016.

1.4 Future in Mind is now a work-stream of the Children and Maternity STP Delivery Group and is driven by the FIM Core Commissioners Group.

1.5 Achievements so far for Southern Derbyshire include:

- New eating disorder provision up and running
- New Children in Care Service,
- CAMHS RISE Service
- Evidenced based training programme for CAMHS and School Staff
- A Derby City and Derbyshire wide Anti-Stigma Campaign (commencing in April

2017) including training for staff and volunteers on how to challenge prejudice and discrimination

- Training for staff and volunteers on what to do if they suspect a child or young person in their service has mental health issues – commencing in April 2017.
- A schools Toolkit to promote good mental health and to support staff in spotting early signs
- VCS increased capacity.

1.6 Priorities for this year include:

A new intensive home support service for children and young people and their carers to reduce the number of Tier 4 hospital admissions where appropriate. The service will offer advice, information and therapy for C&YP at home and support for parents and carers including respite care and training to help them better manage care at home.

A new workforce development strategy and Action Plan for Derby City and the Council – bringing together our efforts to improve workforce capacity, capabilities, and understanding. The strategy will include the faith, voluntary and community sector who also provide valuable services for C&YP.

A new parenting programme for parents and carers of children with autism and ADHD. The programme will have three elements: direct advice and support; a train the trainer element to increase the number of staff and volunteers who can advise parents, and a pilot project to train staff in a new approach to dealing with aggressive C&YP called Non Violent Resistance (NVR).

A specialist Joint Strategic Needs Assessment specifically examining the needs of C&YP in Derby and Derbyshire and mapping those needs against available services to better inform decision making and the allocation of resources. The JSNA will consider the needs of particularly vulnerable communities such as Children in Care, BME Communities and children living in poverty.

Development of a place based approach to services working with schools, primary care and faith, voluntary and community services.

RECOMMENDATION

- 2.1** The Board is asked to receive and note the recent refresh of the 2016 Future in Mind Plan.

REASONS FOR RECOMMENDATION

- 3.1** The Board has a duty to improve the Health and Wellbeing of its population. Future in Mind supports delivery of this duty.

SUPPORTING INFORMATION

- 4.1 The recent Refresh of the Future In Mind Plan is attached, including the Plan on a Page.

OTHER OPTIONS CONSIDERED

- 5.1 Not applicable.

This report has been approved by the following officers:
