The Committee recommended deferral of the application. Members requested that a Heritage assessment and heritage impact assessment was submitted for the site as well as an archaeological assessment. The officer advised the Committee that the DC Archaeological advisor was consulted as it had been raised that the site might have had a deserted medieval village upon it. It was noted that although there were some photos of the outbuildings, Members requested that a site visit was organised to visit the site.

It was noted that the proposed development was detrimental to the significance of the listed wall, would negatively impact on the character and appearance of the conservation area, that it adversely affects the setting of the listed buildings and the impact would remain negative on the street scene due to the scale and massing of the proposed new building and alterations to the access to it.
