## Changes to Proposals Map:

The Proposals Map forms part of Derby's Local Plan and identifies the areas of the City that are subject to policies and proposals contained within Development Plan Documents. The Proposals Map currently shows the saved policies and proposals contained in the City of Derby Local Plan Review (CDLPR), adopted in 2006. It includes policies and proposals for certain sites or areas for uses such as housing, employment, open space and regeneration.

This document sets out proposed changes to Derby's Proposals Map which will arise from the adoption of new policies and proposals contained in the Local Plan Part 1, Core Strategy. Changes include:

- the deletion of existing allocations where they are no longer relevant
- updated / amended boundaries of features that have changed since the CDLPR was adopted
- the inclusion of boundaries for new / amended policy designations

All of the proposed amendments are listed against the relevant CDLPR policies in the 'policy matrix' in the Appendix. In some cases, the designations set out on the Proposals Map will be retained but the Policy to which the designation relates will be changed. The 'policy matrix' also provides a cross reference to the relevant policies where this applies.

The following section includes a number of maps showing what changes will be made to the Proposals Map once the Local Plan Part 1, Core Strategy is adopted. The maps are broadly arranged to reflect the order in which affected policy designations are set out in the CDLPR. However, in many cases, more than one proposed amendment is shown on the same map.

A number of amendments were made to the Proposals Map in 2009 in order to reflect the policies of the CDLPR that were not 'saved' through the transition to the new planning system as set out in the Planning and Compulsory Purchase Act 2004. Allocations deleted from the Proposals Map in 2009 included:

Relevant Core Strategy Policy:	CP10
Relevant Modification References:	EP3.1, EP11.1
Description of Amendments:	Area EP3 (a) to be deleted and identified as existing employment land. Areas (b) and (c) to be maintained as part of EP3 allocation.
Justification:	Area EP3 (a) has been developed for predominantly employment uses. Area (b) has been developed for mainly education uses and has been identified as a Higher Education Campus in Policy CP22. Employment would still be acceptable in this area and therefore it will be maintained in EP3 as well. Area EP3 (c) has been developed for leisure uses. The approach to this area will be reviewed in the Local Plan Part 2.
