

Derby City Council

Public Health Directorate

Primary Care Locally Enhanced Services Consultation November 2013

Consultation Process

- 2 Phase consultation process undertaken to review existing services – 7th October 2013 to 27th December 2013
 - Key stakeholder consultation pack with over 40 respondents
 - Two presentation events (11th November and 13th November 2013)

Derby City Council

Consultation Findings

You told us....

Consultation Findings: Consultation Questions

- Respondents were asked to prioritise statements regarding the future design and delivery of community services
- Top ranked :

1 Future service contracts should be made available to any GP or pharmacy in Derby who meets minimum service delivery standards with payment being made on a standard unit rate.

2 Unit costs should (if possible) remain largely unchanged but with payment being made against specific audiences of greatest need as identified by Derby City Council with new pathways developed for non-target audiences.

3 Delivery of interventions should be condensed within up to 9 priority geographical locations in Derby which offer the full range of Public Health contracted services.

Consultation Findings: General Practice Consultation Questions

- Respondents were asked to identify their 3 least important priorities for the future deliver of General Practice services
- Top ranked priorities:

1 Sexual Health Services for students

2 Chlamydia services

3 Health Checks
