

Appendix 5

Research Data

In the design and structure of the consultation we looked at a number of existing reports and research projects to gain a better understanding of patient experiences in this specialised area. This appendix lists some of the information considered at research stages:

5.1 Information provided by MHAG about public spending on mental health services. The data below tied in with recent news articles about the lack of adequate funding into mental health services across the country.

Region	Total public health budget 14/15*	Total budget allocated to public mental health 14/15*	% of total public health budget allocated to public mental health 14/15*
East Midlands	£147,281,985	£1,141,497	0.78%

As we have previously stressed in the report, Healthwatch Derby's team consists only of 7 members of staff. To complete this project we had to act practically and ensure a timely gathering of data. To the best of our knowledge we have tried to include as many pieces of current or former local intelligence research and reports as possible. In addition to the above list, we have also regularly used resources from a number of organisations in the city and county which include:

Derbyshire Mind
Derbyshire Friend
Derbyshire Voice
MHAG
Rethink
Mental Health Forums in Derby City & Derbyshire areas
British Red Cross
Age UK
Citizens Advice
Derbyshire Carers Association (includes Derby city and Derbyshire)

Web resources included:

The King's Fund
Mental Health Foundation
SANE Mental Health
Time To Change
Carers UK
Mental Health Alliance
Mental Health Forum
Young Minds
Care Quality Commission
Derby City Council
Derbyshire County Council

NHS England
NHS Choices
Southern Derbyshire CCG
Hardwick CCG
Department of Health
Healthwatch England (regional and national Healthwatch information)

Overall information provided by the Trust which included details of service funding as part of their presentations at the Think Healthy workshops. In addition to the above, we have also regularly used websites, blogs, mainstream media news reports, local news, and any other useful resource such as events and information for mental health awareness month (October 2014) as part of our research and local intelligence collection.
