07/15 Draft City Centre Masterplan 2030

The Committee received a report of the Strategic Director or Neighbourhoods, which was presented by the Conservation Officer. The report; The Draft City Masterplan 2030 set out a strategic context for investments opportunities in the city in the next 15 years. It

highlighted the Council's commitment to regeneration of the city centre and put forward ten key ambitions.

Masterplan Part 1 and 2 could be viewed on the internet via the following link:

www.derby.gov.uk/council-and-democracy/consultations/your-city-your-say-latest-consultations/derby-city-centre-masterplan-2030/"The document was out for consultation until the 29th May 2015. Comments could be made by making comments online or by e-mailing .

The report invited Conservation Area Advisory Committee Members to note the draft document and comment as individuals or on behalf of the groups they represent by the deadline.

Members briefly discussed the report but commented that the deadline is only 24 hours after the Conservation Area Advisory Committee meeting which they didn't feel was sufficient time to give considered comments. Councillor Tittley requested that a presentation be given at the next Conservation Area Advisory Committee meeting to give the Members a better insight into the report.

Resolved to note the report and requested that a presentation is given to the Committee at the next meeting.

08/15 Applications to be considered

City Centre Conservation Area

Application No. DER/02/15/00210- River Derwent Corridor including sites from Darley Abbey, Little Chester, Chester Green, North Riverside, Bass Rec',
& Location: Pride Park to Alvaston Park, Derby

Proposal: Outline application with full details of 'Package 1' for flood defence works along the river corridor involving; demolition of existing buildings, boundary treatments and flood defence walls, removal of existing flood embankments, vegetation and trees, the raising, strengthening, realigning and construction of new flood defence walls, embankments, access ramps and steps, demountable flood defences and flood gates, the construction of replacement buildings, structures and community facilities, alterations to road, footpath and cycleway layouts along with associated and ancillary operational development in the form of ground works, archaeological investigation works and landscaping works to reinstate sites with environmental enhancements included.

Listed Building: LIS

A comprehensive report and presentation of the application DER/02/15/00210- River Derwent Corridor including sites from Darley Abbey, Little Chester, Chester Green, North Riverside, Bass Rec', Pride Park to Alvaston Park, Derby, were presented to the Committee by a Conservation Officer.

Mrs J D'Arcy, had declared an interest and left the room whilst the Chester Green element of the application was presented, discussed and decisions made.

Members discussed and commented on the report as each section was presented.

Resolved to accept the report in principle and with reservation but recommended the following:

- 1) The extent of the walling proposed in Little Chester is excessive. The Committee recommended reducing the amount of walling and raising the grassed bunds on the north-west and greater use of landscaping to hide the wall.
- 2) There was objection raised regarding the setting of the listed building due to the closeness of the location of the wall to the west of Stone House Prebend property which is a listed property.
- 3) The Conservation Area Advisory Committee suggested that there be much more design input into the scheme as they feel the aesthetics need to be looked at. It was raised that the materials used need to be carefully considered– the importance of the brick and stone choice and their need to relate to their context.
- 4) All trees that are removed from the Little Chester section are replaced at a ratio of three replacements for every tree that is removed.
- 5) The committee object to the proposal's need to demolish two locally listed buildings in the north riverside area and questioned whether a third would also be affected. It was suggested that this area be re-looked at and the possibility of water being directed in underground tunnels instead. It is hoped that the buildings in question can be retained.
- 6) The committee strongly objected to the alignment of the tunnel at the north end of Little Chester. They suggested that this should be removed and an entrance be made a focal point of.
