

Scrutiny

November 2021

Why are we here?

- The population of Sinfen is growing
- Sinfen Health Centre is in a key strategic location but is too small
- Derby has the opportunity to participate in a collaborative national pilot programme to build a new multi purpose health centre in Sinfen

Where are we in the process

- We have identified a location close to the current health centre and are in negotiation with the current owners to buy the land
- We have different organisations from across Derby City interested in occupying the new building:

Sinfin GP surgery	My Dentist
Midwifery services	A selection of outpatient services
Baby clinics	Wound care
Podiatry	District nursing
Mental health services	A Food Bank
The YMCA	Live Well
Physiotherapy	Occupational Health
Adult Social Care	Sexual Health
Dietician	Health and Wellbeing

Next steps

- Agree the valuation
- Agree the overall design concept for the building
- Undertake further Comms and Engagement work with the population to understand needs
- Apply for planning permission

Thank you for your time
